Town Warrant.

ANNUAL TOWN MEETING, MARCH 26, 1906

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

MIDDLESEX, SS.

*To either of the Constables of the Town of Wayland in said County.
Greeting:*

In the name of the Commonwealth of Massachusetts you are required to notify and warn the inhabitants of said town qualified to vote in Town elections and in Town affairs to meet at the Town Hall on Monday, March 26, 1906, at 6 o'clock in the forenoon, there and then to act on the following articles, viz :—

ARTICLE 1. To elect a Moderator, Town Clerk, Treasurer, Collector of Taxes, Auditor, Highway Surveyor, three Selectmen, Treasurer of Library Funds, Tree Warden, and seven Constables, all for one year; one member of School Committee, one Sinking Fund Commissioner, one Assessor, one Water Commissioner, one Overseer of the Poor, two Trustees of the Public Library, one

Town of Wayland.

member of the Board of Health, all for three years. Also to vote "Yes" or "No" upon the following question: "Shall licenses for the sale of intoxicating liquors be granted in this Town for the year ensuing?"

Names of Candidates for the offices aforesaid, and the said question must appear upon the official ballot, and be voted for in accordance with Chapter 11 of the Revised Laws of Massachusetts. The polls will be open from 6-10 o'clock A. M. and closed at 2 P. M., unless otherwise ordered by the voters present.

ART. 2. To choose all other Town Officers, Agents and Committees; and hear reports of Town Officers, Trustees, Agents, and Committees, and act thereon.

ART. 3. To grant money for any and all necessary Town purposes, and order the same to be assessed, or do or act.

ART. 4. To authorize the Selectmen to consult counsel on important Town cases, and, in the name of the Town, employ counsel and defend any action at law or suit in equity that may be brought against the Town, or do or act.

ART. 5. To see if the Town will accept the list of jurors as prepared by the Selectmen, or do or act.

ART. 6. To appropriate the money received from the County Treasurer for dog licenses.

ART. 7. To authorize the Town Treasurer, with the approval of the Selectmen, to borrow during the municipal year beginning March 1, 1906, in anticipation of the collection of taxes of said year, such sums of money as may be necessary for the current expenses of the Town, but not exceeding the total tax levy for said year, giving the notes of the Town therefor, payable within one year from the dates thereof. All debts incurred under authority of this vote shall be paid from the taxes of the present municipal year.

ART. 8. To see if the Town will vote to place an electric light at the junction of King Street and Mitchell Street, Cochituate Village, and appropriate money for same, or do or act.

ART. 9. To see if the Town will authorize and instruct the Selectmen to petition the General Court for such legislation as shall

Town Warrant.

preserve to our citizens the right of boating, fishing, and skating upon Lake Cochituate, or take any action relative thereto.

ART. 10. To see if the Town will appropriate not exceeding \$965.08 for work against the gypsy and brown-tail moths in 1906.

ART. 11. To see if the Town will authorize the Selectmen to cancel the lease to the Catholic Church of the room in the Town Hall, or do or act.

ART. 12. To see if the Town will authorize the Selectmen to lease the room in the Town Hall now occupied by the Catholic Church to the Wayland Business Men's and Athletic Association.

ART. 13. To see if the Town will appropriate not exceeding one thousand (\$1,000) dollars for the construction of a concrete or asphalt sidewalk from the railroad station to the further end of the High School lot, and for establishing a grade and for improvement of the main street of the Centre Village.

ART. 14. To see if the Town will instruct the Selectmen to install additional street lights, in and near Wayland Centre, or do or act.

ART. 15. To see if the Town will accept the provisions of Articles 21 to 25 inclusive of Chapter 78, Revised Laws, providing for the Election of Cemetery Commissioners, or do or act.

ART. 16. To see if the Town will accept the sum of three hundred dollars from the estate of Edward L. Moore, the income thereof to be used for the care and improvement of the lot and monument of David Moore, in West (North) Cemetery.

ART. 17. To see if the Town will accept a bequest under the will of Abbie M. Heard, deceased, late of Wayland.

ART. 18. To see if the Town will appropriate the sum of one hundred dollars to use for resetting headstones in the North Cemetery and for needed repairs on lots where there are no representatives of their family left to care for them.

ART. 19. To see if the Town will authorize and direct the Selectmen to appoint an additional engineer of the Fire Department resident in the centre village, said engineer to organize and direct a Volunteer Fire Company for the centre village, or do or act.

Town of Wayland.

ART. 20. To see if the Town will vote to move the electric light on Harrison Street some two hundred feet west from its present position, or do or act.

ART. 21. To see if the Town will accept the provisions of Section 353 of chapter 11 of the Revised Laws, providing for election of town officers by precinct voting and for voting on the question of granting licenses for the sale of intoxicating liquors.

ART. 22. To see if the Town will repeal or modify Section 7 of the By-Laws of the Town or revise or repeal any part of said By-Laws, or do or act.

ART. 23. To see what action the Town will take in regard to the purchase of the land known as Griffin Field, or do or act.

And you are required to serve this warrant by posting a copy thereof attested by you at each of the Post Offices, at the Engine House and at the Town House in said town, seven days at least before the appointed time for holding said meeting. Hereof fail not and make due return of this warrant, with your doings thereon, to the Town Clerk, on or before Saturday, March 24, current.

Given under our hands this tenth day of March in the year of our Lord one thousand nine hundred and six.

ALFRED T. DEAN,
ALBION F. PARMENTER,
HENRY P. SHERMAN,

Selectmen of Wayland.

REPORT OF SELECTMEN.

WAYLAND, February 28, 1906.

We have made the following appointments according to law :

ENGINEERS OF FIRE DEPARTMENT. Edwin W. Marston, Charles E. Coakley, Frank J. Bigwood.

INSPECTOR OF ANIMALS. Thomas Bryant, V. S.

REGISTRARS OF VOTERS. Frank Haynes, three years ; Benjamin W. Damon, to fill the unexpired term of Theodore L. Sawin, deceased.

AUCTIONEERS. George E. Sherman, Jacob Reeves, D. W. Ricker.

PUBLIC WEIGHERS. Nathaniel R. Gerald, Fred C. Beane, Lorenzo K. Lovell, Ernest L. Grigson.

COAL WEIGHERS. John Alward, Dolor Cormier.

JANITOR OF TOWN HALL. John E. Linnehan.

BURIAL AGENT FOR INDIGENT SOLDIERS. Damon L. Veasey.

SEALER OF WEIGHTS AND MEASURES. Daniel Brackett.

SPECIAL POLICE OFFICERS. M. W. Hynes, J. E. Linnehan, I. W. Currier, A. B. Neal, Ralph Neal, A. S. Carson, E. F. Lawrence, Robert Lamont, W. S. Lovell. For July 3rd and 4th, Bryant M. Bailey, Frank X. Lupien, John H. Maloney, Joseph A. Duseault.

ELECTION OFFICERS. PRECINCT 1. Warden, Edward F. Lee ; Clerk, William Stearns ; Inspectors, H. W. Parmenter, James I. Bryden, Charles H. Richardson, Charles E. Quinn. PRECINCT 2. Warden, Frank P. Hannon ; Clerk, D. D. Griffin ; Inspectors, A. A. Lamarine, Bryant M. Bailey, George T. Corman, Felix Noel.

The contract for heating the Town Hall has been completed to the satisfaction of the Selectmen.

Town of Wayland.

We have perambulated the town lines between Lincoln and Wayland, Natick and Wayland, and between Sudbury and Wayland. The boundary stones were located and found in good condition.

We have been compelled to overdraw the incidental account to the amount of \$401.12, this was made necessary by drawing upon this account for the extra police service.

The Selectmen have provided for the disposal of the surface water on Shawmut avenue, and the expense was drawn from the Highway appropriation.

In accordance with a vote of the Town four additional electric lights have been installed in Cochituate.

In regard to contracting with the Edison Electric Illuminating Company for lighting the streets of Cochituate, the Board thought it advisable to make a one-year contract.

In accordance with the vote of the Town in regard to Sherman's Bridge, we have petitioned the County Commissioners with the Town of Sudbury. The County Commissioners gave a hearing on the petition and the bridge will be rebuilt this year.

ALFRED T. DEAN,
ALBION F. PARMENTER,
HENRY P. SHERMAN,
Selectmen of Wayland.

DAVID P. W. LOKER,

Overseers of the Poor.

REPORT OF SURVEYOR OF HIGHWAYS.

WAYLAND, February 28, 1906.

The amount appropriated for Highways and Bridges the past year was two thousand dollars (\$2,000.00). There was an unexpended balance from previous year of one hundred and seventy-three dollars and sixty cents (\$173.60). Also the Excise Tax, amounting to four hundred and fifty-two dollars and sixty-six cents (\$452.66), making a total of two thousand six hundred and twenty-six dollars and twenty-six cents (\$2,626.26).

The total amount expended was two thousand seven hundred and thirty-nine dollars and seventy-seven cents (\$2,739.77),* leaving an unexpended balance of four dollars and fifty-four cents (\$4.54).

The snow bills for the year amount to ninety-seven dollars and fifty-one cents (\$97.51).

Itemized bills for above amounts are on file in the Selectmen's office.

*One hundred and eighteen dollars and five cents (\$118.05) of this amount was paid by the Natick and Cochituate Street Railway Company.

Surveyor of Highways.

MICHAEL W. HYNES,
Surveyor of Highways.

REPORT OF THE BOARD OF HEALTH.

The Board of Health submits the following report for the year ending February 28, 1906 :

CONTAGIOUS DISEASES.

Typhoid Fever, 2 cases.

Chicken Pox, 6 cases.

Measles occurring not reported.

MALARIA.

Malaria has always been prevalent in Wayland and Cochrane, and up to the present year no prophylactic measures were employed to prevent its occurrence.

Last April the Board consulted with officers of the Brookline Board of Health, and decided to employ their method of petrolizing stagnant pools of water, of which Wayland and Cochrane have several.

Apparatus was procured and mosquito oil, at small expense, and periodical visits were made throughout the breeding season, and oil sprayed over the surface of pools.

The result has been that very few cases of malaria have appeared during the past season compared with preceding years.

The Board of Health intends to follow the same method the coming year, and asks that individuals assist by keeping their premises free from stagnant water, as occurring in empty preserve cans, bottles, broken crockery and privy vaults, which breed mosquitoes.

GARBAGE, VAULTS, SEWAGE.

The Board of Health suggests that the town make some arrangements, for the more frequent and thorough removal of garbage, ashes and vault contents, and the rapid filling in of pond holes.

Town of Wayland.

PIGGERIES.

The Piggeries in Wayland have been inspected and found to have been kept in condition, not interfering with the health of the community.

WILLARD C. HUNTING, *Chairman.*

WILLIS G. JEFFERSON, M. D., *Secretary.*

WILLIAM M. FULLICK,
ALFRED T. DEAN,
HENRY G. DUDLEY,
Commissioners of Wayland Water Works.

February 28, 1906.

REPORT OF THE SUPERINTENDENT OF THE WAYLAND WATER WORKS.

GENTLEMEN :—

It was very dry last summer and the fall of water for year was way below the average, but the Pond did not fall at any time more than fifteen inches below high water mark. About the fifteenth of November the water developed a very peculiar taste. We applied to the State Board of Health at once to find out what the trouble was, and they came out and examined the Pond and took several samples of water, and in a few days sent us the following letter :

BOSTON, November 15, 1905.

MR. H. G. DUDLEY,

Superintendent Wayland Water Works.

DEAR SIR :

In response to your request I have caused the water of the Wayland reservoir to be examined, and find that it contains a large number of the microscopic organism *Uroglena*, which has frequently caused trouble from disagreeable tastes and odors in other ponds and reservoirs. The cause of its presence in waters is not known, nor do we know of any safe method of removing it under the circumstances. It is not known that water containing such organisms is injurious to health if used for drinking.

Yours truly,

X. H. GOODNOUGH,

Chief Engineer State Board of Health.

I would say that the water is examined every two months by the State Board of Health.

Town of Wayland.

The maintenance account is as follows : —

1905.

Mar.	29.	To Frank F. Ames	\$10 00

FINANCE COMMITTEE.

The Finance Committee respectfully submits the following and recommends that the same be appropriated and adopted, viz. :—

Incidental fund	\$2,000 00
Support of poor	2,000 00
Abatement of taxes	300 00
School salaries and fuel	8,000 00
School supplies	600 00
Transportation of scholars	1,500 00
Repairs on school buildings	100 00
Superintendent of Schools	375 00
School incidentals	150 00
Salaries	1,300 00
Electric lights	995 00
Fire department	700 00
Hydrants	384 00
Highways	2,000 00
Collector of taxes	350 00
Library and repairs	900 00
Lakeview Cemetery	75 00
North and Centre Cemeteries	75 00
Highway loan	400 00
Memorial Day in addition to unexpended balance	75 00
Sinking fund	1,408 80

\$23,687 80

We recommend that the sum of fifteen hundred eighty-one dollars and thirty-five cents (\$1,581.35) be transferred from the contingent fund to pay overdrafts. We recommend that the sum of

Finance Committee.

four hundred and eighty dollars (\$480.00) be transferred from water rates to pay interest on water bonds.

That the Selectmen be authorized to draw from the contingent fund such sums of money as may be necessary, not exceeding five hundred dollars (\$500.00) for assisting needy soldiers and their families. That the Selectmen be authorized to draw from the contingent fund a sum not exceeding three hundred and fifty dollars (\$350.00) for the use of the board of health.

That the sum of three thousand three hundred dollars (\$3,300.00) be transferred from contingent fund to pay interest on town debt. That the money for removing snow be drawn from contingent fund.

PAUL T. DRAPER, *Chairman.*

L. K. LOVELL.

CHARLES W. DEAN.

DANIEL D. GRIFFIN.

CLARENCE S. WILLIAMS, *Clerk.*

Town of Wayland.

FRANCIS SHAW,
Treasurer.

Wayland, March 1, 1906.

REPORT OF TRUSTEES OF PUBLIC LIBRARY.

The records of the Library Trustees for the past year, while containing no unusual or especially notable events, indicate a steadily increasing use and appreciation of the institution by our citizens. The Library has attained a high standard in every way, and it has been the duty of the Trustees to maintain it. We have endeavored by the careful use of means at our disposal, in the acquisition of the best books selected from the lists of new publications, by the maintenance and renewal of standard works and by supplying our Reading Room with a liberal assortment of the best current periodicals, to do this.

The care of our beautiful and dignified Library building and grounds has received our best attention, that externally the institution may indicate the value in which learning and intelligence are held in this town.

Reference to the Librarian's statistics shows a steady increase in the Library's circulation. A comparison of last year's figures with those of five years ago shows an increased circulation of some 3,000 volumes, or 60 per cent. With our present advantages and facilities a notable increase is assured, and to this end the Trustees will spare no effort.

The Annual Report of the Librarian is herewith submitted.

ARTHUR G. BENNETT, *Chairman.*

A. WAYLAND CUTTING, *Secretary.*

FRANCIS SHAW.

LESTER R. GERALD..

Wayland, March 1, 1906.

Auditor's Report.

AUDITOR'S REPORT.

WAYLAND, March 17, 1906.

The accounts of the financial officers have been examined and found correct.

Soon after the death of the late Tax Collector, Henry F. Lee, his books and accounts were examined by the Auditor. Mr. Lee became Collector in the spring of 1900, and portions of the taxes of 1895-1899, inclusive, and the taxes of 1900 and 1901, were included in the investigation. The Auditor presented his findings to the Selectmen, showing that the estate of the late Collector was indebted to the town to the amount of \$688.77, largely for taxes and interest collected since March 1, 1905.

FREDERICK H. FOWLER,

Auditor.

Wayland School Committee Reports

1905-6

ANNUAL REPORT
OF THE
School Committee
OF THE
Town of Wayland, Mass.

FOR THE
YEAR ENDING MARCH 1, 1906

PRINTED FOR THE SCHOOL COMMITTEE

1906

J. Frank Facey, Printer

30 Prospect Street, Cambridge

REPORT OF SCHOOL COMMITTEE.

To the Citizens of the Town of Wayland:

While it is our duty to make annually a detailed report of our public schools, containing such suggestions and information as we may think necessary to promote their interests, we do not deem it important to make it so elaborate as we otherwise might were it not that the report of the Superintendent is also published with the Town Report, giving in detail all matters relating to the schools.

The condition of the schools in general is good, the work done by the teachers in the various grades excellent, the relations between teachers and pupils are pleasant, and the pupils seem happy and interested in their work. We think this satisfactory result is due to our having an excellent corps of teachers, all of whom are earnest and sincere in their efforts to make school life agreeable and improving to their pupils.

The town employs at the present time eighteen teachers, including supervisors of music, drawing, stenography and typewriting. Of these, eight are new the present year. Certain changes are sure to occur during a year on account of resignation or dismissal, but chiefly through resignation to accept a larger salary elsewhere.

Town of Wayland.

The principals of the High School and of the Cochituate Grammar School resigned to accept more lucrative positions.

It seemed advisable to all the members of the Committee to make one change, and to the majority of the Committee another, so that the beginning of the winter term, January 1, 1906, found us with an entirely new corps of teachers in the High School. We have no hesitancy in saying that we believe that the school was never better equipped in its teaching force than at the present time, and that every effort should be made to retain these teachers, for, as a rule, any teacher can do better work the second year than the first. It therefore seems to us that it is a better policy to keep good teachers, even by paying higher salaries, than to let our schools be made training schools from which neighboring cities and towns may take them after they have shown their capabilities here. We wish to emphasize this point. Good teachers should be kept as long as possible, even if the salary limit must be raised ; otherwise the work of the schools will be uncertain and often unsatisfactory. On February the second last the resignation of Mr. Corlew as Superintendent was received, and the joint committee met on February the seventeenth and elected Mr. S. C. Hutchinson of Dighton to fill the vacancy.

We desire again to call to your attention the need of a new school building in Cochituate. This need is generally known, and as generally conceded. In our opinion it would be unwise to attempt to fix over the present building, as it would require a large expenditure of money, and in the end would not be satisfactory. If a new building is to be erected, it should be on a new site, and large enough to

School Committee.

accommodate all of the pupils from both the Lokerville and Cochituate schools.

We wish to express our appreciation of the earnest work of Mr. Corlew and our teachers.

ISAAC DAMON,
HARRY E. CARSON,
EDWARD M. BENNETT.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Committee of Wayland:

Gentlemen:—I have the honor to submit the eighth annual report since the formation of the Union District.

BUILDINGS.

The school building at the Centre is thoroughly renovated and repaired each year by a citizen tax-payer of this town. The condition of the building at Cochituate and Lokerville is too well known to need any words from me. It is to be hoped that in the near future the town will take action looking to the erection of a new building.

SPELLING.

For a number of years the spelling of pupils in many sections of the country has been quite severely criticized and justly so. This resulted in an investigation being started to determine the cause or causes for such a state of affairs.

The most of these were made at Sioux City, Iowa, and the School of Pedagogy, New York University, New York City. As a result of the study of the conclusions reached at these places the following plan was instituted nearly a year ago in all the schools in the Union District of Wayland, Sudbury and Dover.

A lesson of five words was assigned and studied by teacher and pupils orally, pronouncing each syllable as it is spelled. After a careful study of these words they are spelled orally, paus-

Superintendent of Schools.

ing after each syllable but not pronouncing it. The same words are then written by the pupils and they are practiced in using them correctly in sentences. This is done four days in the week and on Friday the twenty words so learned are thoroughly reviewed, particular stress being put on their correct usage. The teachers report gratifying results. It may seem that twenty words a week are too few, but beginning with the second year and continuing through the remaining eight grades, counting thirty-seven weeks to the year, the pupils will learn to spell and use five thousand nine hundred and twenty words, a vocabulary larger than that used by a very large majority of the people of this land. It has been found out that very many pupils are unable to pronounce words because of their inability to divide them into syllables.

ARITHMETIC.

There is no subject in the curriculum on which so much time and energy is spent as that of arithmetic. Eight years with daily recitations are given to the pursuit of this subject with results entirely incommensurate to the force applied. There seems to be two kinds of arithmetic, mental and detrimental, with latter far in the lead.

This year the teachers have been trying to perfect the pupils in the mechanics of the subject. That is to teach them to add, multiply and divide accurately and rapidly. They are omitting the non-essentials and fitting the subjects taught to the business of daily life.

Much valuable time is wasted because the pupils are not proficient in the four fundamental operations and they become discouraged and lose confidence in their ability to perform ordinary examples. Is it not time that this subject should be shorn of its "morbid excrescences?"

ENGLISH.

While spelling and arithmetic have received special attention the teaching of English has not been neglected. To speak cor-

Town of Wayland.

rectly and to express thought in terse idiomatic language, both oral and written, and to gain an intimate acquaintance with the best authors, has received careful attention.

This subject demands and should receive persistent and hearty effort by both teachers and pupils. Commendable progress has been made in other branches.

MANUAL TRAINING.

That the Commonwealth recognizes the value of manual training is shown by the fact that in 1898 the following law was enacted. Revised Laws, Chapter 42, Section 9:

"Every city and town containing twenty thousand inhabitants or more shall maintain the teaching of manual training as a part of both its elementary and its high school systems."

Essentially this says that there are other means than books for developing the mind. While Wayland cannot introduce a complete system of manual training there are many things along this line that could be done which would be of benefit.

A visit to any of the Manual Training schools in Boston and vicinity would prove profitable. It is not the province of this report to discuss this subject but to suggest that it is worth investigating.

TEACHERS.

There has been but two changes in the corps of teachers. Miss Helen L. McGann, who taught the third and fourth grades in Cochrasset, was obliged to resign on account of ill health. Her going was a distinct loss, for she is a teacher of rare ability. Miss Ethel Crowe taught these grades for the remainder of the year and did good work. Miss Bertha Perkins, teacher of English and modern languages in the High School, resigned to accept a position in Southbridge. It was with regret that her resignation was accepted, for she did excellent work.

Drawing under the direction of Miss Stickney and music under the charge of Miss Boland have shown marked progress.

Superintendent of Schools.

That the schools have advanced during the past year is due to the efficient work done by the faithful and progressive teachers who have had charge of our schools.

UNION MEETINGS.

Soon after beginning work in this superintendency district it seemed to me that the work of the schools should be unified; that there should be uniform text books and the same course of study for all; that there should be conferences of teachers from the different towns, also of the committees, and that both should have a chance to meet the members of the State Board or its representatives and so give the State a chance to know the teachers of this district.

After consulting with the secretary of the State Board of Education and the committees of the several towns, it was decided to have three union meetings a year, one in the fall in Dover, one in the winter in Wayland, and one in the spring in Sudbury, and that the State should be represented at each meeting.

The first one was held the last week in September, 1904, in Dover, and like all subsequent ones was a thoroughly enjoyable and successful meeting.

The following is an outline of what was done: Exercises began at 9:45 a. m. with Mr. Richard H. Bond, Chairman of the Dover Committee, in the chair. Devotional exercises were conducted by Mr. F. F. Walker, Chairman of the Sudbury Committee. At ten o'clock Mr. George H. Martin, Secretary of the State Board of Education, gave a talk on "Ideals." At eleven the joint committee held a conference with Mr. Martin and the teachers held conferences. Adjourned at twelve o'clock for lunch.

Convened at 1:45, at which time Miss Lillian A. Ordway, of the Framingham Normal School, gave a talk on "Geography as a Background for History." Adjourned at three o'clock. This is typical of the programs of the meetings held since.

In furtherance of the plan of unification all the schools in

Town of Wayland.

the district have the same course of study and uniform text books in arithmetic, geography, history, penmanship, music and in language in the upper grammar grades.

It is the opinion of both teachers and committees that these meetings have been beneficial.

I wish to thank the teachers and the committee for the heartiness with which they have aided me in my work.

Respectfully submitted,

JOSEPH T. CORLEW,
Superintendent of Schools.

REPORT OF THE SUPERVISOR OF MUSIC.

Mr. J. T. Corlew, Superintendent of Schools:—

I wish to submit my report of the music for the town of Wayland.

A plan of the year's work was given to the teachers of the first three grades. This plan requires the use of the "Normal Course," "Book II." This book is used in the second and third grades. "The Natural Music Readers" are still used in the fourth, fifth, sixth and seventh grades. New outlines are given every month to teachers using these books.

In the eighth and ninth grades the "Cecilian Series, Book III," is used. This book proves very satisfactory in these grades. Individual work has received much attention in all grades during the year. Slips are given to each pupil. These slips contain an exercise in music and the pupil is required to know the technical part and sing the exercise. These exercises may be in two parts. This requires each child not only to read his part, but also to get his tones correct, thus giving him good practice in ear training. This individual work has so improved the music that we found the classes at the beginning of this term to be four months in advance of what they were last year.

The study of the cantata, "The Village Blacksmith," is being taken up in the High School with very gratifying results. The chorus is accompanied by Master Lyons on the violin and Master Dowey on the violoncello, thus increasing the interest and pleasure of the pupils.

Respectfully submitted,

AGNES E. BOLAND,
Supervisor.

REPORT OF THE SUPERVISOR OF DRAWING.

Superintendent of Schools, Mr. Joseph T. Corlew:—

The general plan of the work in drawing is the same as that of the year previous, slight changes being made to adapt the work to the different rooms of the same grade. It has been the endeavor to have the work in drawing a part of the regular school course and not a subject isolated by itself. In this way only, in the correlation of subjects, will children profit by what they learn.

In comparing results from day to day the progress seems slow but comparing this present year's work in drawing with that of two years ago a decided advancement can be seen. A phase of the work which needs strengthening is the object drawing; by persistent efforts it is hoped to raise the present standard of this phase. The representative drawing of which object work is a part, is a subject which pupils will need and make use of when they leave school life.

There is hardly a person who does not desire the ability to be able to represent, when talking, some specific point to be wrought out, be this in placing of a tree in a yard, the shape of a desired flower bed, the size of a new piece of stove pipe in which the person is in need; not essentially a drawing accurate in execution, not a drawing accurate in idea. It is only by persistent and conscientious work on this phase that the desired ability to represent what one sees can be brought about.

A phase directly opposite from this object drawing, and

Supervisor of Drawing.

which is used as much by the general public, is the mechanical drawing, this giving the facts of things as they really are. To be able to represent quickly and accurately, to understand what is meant by different views of objects, and above all to be able to read intelligently a working drawing, is the aim of this work in mechanical drawing. This phase will be studied in the early spring, the work being greatly facilitated by the use of drawing kits which have been generously supplied by the committee. Though by slow steps it may seem that pupils are being trained in a mechanical way, it is believed that through these methods pupils are unconsciously learning to appreciate beauty of nature and manufactured material.

The work in the High School is truly encouraging, the two classes in free-hand drawing having increased four times the number enrolled the previous year. Consequently there is more enthusiasm and better work obtained. Conscientious work is being done by the pupils of the mechanical division, an interest being shown in the course arranged for the year. This is always productive of good results.

The periods are so arranged that each class has a separate period; this greatly simplifies the work and gives a better opportunity for individual instruction. What improvement has been made in the work in drawing is due to the united efforts of the teachers and the support of the superintendent and committee.

Respectfully submitted,

MARY J. STICKNEY,
Supervisor of Drawing.

APPENDIX.

SCHOOL CALENDAR, 1906-1907.

HIGH SCHOOL.

Fall term begins Tuesday, September 4, 1906. 15 weeks.

Fall term ends Friday, December 14, 1906.

Vacation.

Winter term begins Monday, December 31, 1906. 12 weeks.

Winter term ends Friday, March 22, 1907.

Vacation.

Spring term begins Monday, April 1, 1907. 13 weeks.

Spring term ends Friday, June 29, 1907.

PRIMARY AND GRAMMAR SCHOOLS.

Fall term begins Monday, September 10, 1906. 14 weeks.

Fall term ends Friday, December 14, 1906.

Vacation.

Winter term begins Monday, December 31, 1906. 12 weeks.

Winter term ends Friday, March 22, 1907.

Vacation.

Spring term begins Monday, April 1, 1907. 11 weeks.

Spring term ends Friday, June 14, 1907.

Town of Wayland.

Holidays occur every Saturday; Labor Day; from noon of Wednesday preceding Thanksgiving until the following Monday; Washington's Birthday, Patriot's Day, Memorial Day.

SCHOOL HOURS.

WAYLAND: 8.45 A. M. to 2.20 P. M. One half hour intermission for lunch. High School, 8.45 A. M. to 1.20 P. M.; 10 minutes intermission for lunch.

COCHITUATE: 9 A. M. to 11.30 A. M.; 1 P. M. to 3.45 P. M.

LOKERVILLE: 9 A. M. to 11.30 A. M.; 1 P. M. to 3.45 P. M. Winter term, 9 A. M. to 2.30 P. M. One half hour intermission for lunch.

General Summary.

GENERAL SUMMARY.

Population of town (census 1905)	2,216
Valuation May 1, 1905	\$2,031,112.00
Valuation of schoolhouses and lots	\$31,000.00

OFFICIAL REPORTS
OF THE
Town of Wayland

FOR ITS
One Hundred and Twenty-seventh
Municipal Year

FROM
FEBRUARY 28, 1906, TO MARCH 1, 1907

CAMBRIDGE, MASS.
PRINTED BY J. FRANK FACEY
1907

Town Warrant.

ANNUAL TOWN MEETING, MARCH 25, 1907.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

MIDDLESEX, SS.

*To either of the Constables of the Town of Wayland in said County.
Greeting :*

In the name of the Commonwealth of Massachusetts you are required to notify and warn the inhabitants of said town qualified to vote in Town elections and in Town affairs to meet at the Town Hall on Monday, March 25, 1907, at 6 o'clock in the forenoon, there and then to act on the following articles, viz : —

ARTICLE 1. To elect a Moderator, Town Clerk, Treasurer, Collector of Taxes, Auditor, Highway Surveyor, three Selectmen, Treasurer of Library Funds, Tree Warden, and seven Constables, all for one year; one member of School Committee, one Sinking Fund Commissioner, one Assessor, one Water Commissioner, one Overseer of the Poor, two Trustees of the Public Library, one

Town of Wayland.

member of the Board of Health, one Cemetery Commissioner, all for three years. Also to vote "Yes" or "No" upon the following question: "Shall licenses for the sale of intoxicating liquors be granted in this Town?"

Names of candidates for the offices aforesaid, and the said question must appear upon the official ballot, and be voted for in accordance with Chapter 11 of the Revised Laws of Massachusetts. The polls will be open from 6-10 o'clock A. M. and closed at 2 P. M., unless otherwise ordered by the voters present.

ART. 2. To choose all other Town Officers, Agents, and Committees; and hear reports of Town Officers, Trustees, Agents, and Committees, and act thereon.

ART. 3. To grant money for any and all necessary Town purposes, and order the same to be assessed, or do or act.

ART. 4. To authorize the Selectmen to consult counsel on important Town cases, and, in the name of the Town, employ counsel and defend any action at law or suit in equity that may be brought against the Town, or do or act.

ART. 5. To see if the Town will accept the list of jurors as prepared by the Selectmen, or do or act.

ART. 6. To appropriate the money received from the County Treasurer for dog licenses.

ART. 7. To authorize the Town Treasurer, with the approval of the Selectmen, to borrow during the municipal year beginning March 1, 1907, in anticipation of the collection of taxes of said year, such sums of money as may be necessary for the current expenses of the Town, but not exceeding the total tax levy for said year, giving the notes of the Town therefor, payable within one year from the dates thereof. All debts incurred under authority of this vote shall be paid from the taxes of the present municipal year.

ART. 8. To see if the town will appropriate the sum of one thousand (\$1,000.00) dollars for protection against fire in sections of the town where at present there is no such provision, the said appropriation to be expended in purchase of Chemical Fire Extinguish-

Town Warrant.

ers, ladders and other apparatus with suitable wagon for transporting same and provision for housing said apparatus.

ART. 9. To see if the town will instruct the Selectmen to instal three street lights on Crescent Street, or do or act.

ART. 10. To see if the town will adopt the rules and regulations governing its cemeteries as recommended by the Cemetery Commissioners, including form of deed for lots.

ART. 11. To see if the town will appropriate \$500.00 for laying out new lots in North Cemetery as recommended by the Cemetery Commissioners, or do or act.

ART. 12. To see if the town will accept the following bequests:— \$100.00, to be known as the Jackson Fund. \$100.00 to be known as the W. S. Draper Fund. \$100.00 to be known as the Dwight B. Heard Fund.

ART. 13. To see if the town will vote to erect and maintain one (1) electric incandescent light on French Avenue in front of residence of Joseph Gladu, also four (4) additional lights on West Plain Street, location to be determined by the Selectmen, grant money for the same, or otherwise act thereon.

ART. 14. To see what action the town will take to acquire additional land for its water system for the purpose of preserving its present water supply.

ART. 15. To see if the town will appropriate the sum of \$5,000.00 for the improvement of its water supply and authorize the Town Treasurer to borrow the sum so appropriated, the same to be paid in annual payments from water rates.

ART. 16. To see if the town will authorize the Selectmen to install additional street lights in and near Cochituate village, or do or act.

ART. 17. To see what action the town will take regarding better school accommodations in Cochituate village and the adoption of some plan or plans for the purpose of meeting the expense of the same, or do or act.

ART. 18. To see if the town will vote to discontinue the way

Town of Wayland.

formerly known as the "Dedham Road," from a point on School Street, at the residence of Mr. Sauer, to the Weston line, or do or act.

ART. 19. To see if the town will appropriate a sum not exceeding one thousand (\$1,000.00) dollars for construction of concrete sidewalks on Pond Street, from the so-called city pasture to the Granny Pond, and for the transfer of watering fountain and other improvements on Pond Street, or do or act.

ART. 20. To see if the town will appropriate not exceeding one thousand (\$1,000.00) dollars for the purpose of establishing and maintaining a branch library and reading room in Cochituate village, or do or act.

ART. 21. To see if the town will appoint a committee to address a petition to the General Court in favor of the bill to exempt the Dudley Pond from the laws and rules governing bodies of water used as a water supply, or do or act.

ART. 22. To see if the town will direct the Selectmen to install additional electric street lights in and near the center village, or do or act.

ART. 23. To see what action the town will take relative to a bill presented against the town by Joseph F. Minon for counsel fees in the matter of a suit to protect the right of our citizens to boat and fish on Lake Cochituate, or do or act.

And you are required to serve this warrant by putting a copy thereof attested by you at each of the Post Offices, at the Engine House and at the Town House, seven days at least before the time appointed for holding said meeting.

Hereof fail not and make due return of this warrant with your doings thereon to the Town Clerk on or before Saturday, March 23, current.

Given under our hands this eleventh day of March, in the year of our Lord, one thousand nine hundred and seven.

ALBION F. PARMENTER,
ALFRED T. DEAN,
HENRY P. SHERMAN,

Selectmen of Wayland.

SETTLEMENT OF THE BANKS' CASE.

The Board of Overseers, by advice of counsel, have settled the case out of court, the case having been in litigation since 1893, at an expense of eleven hundred dollars.

Respectfully submitted,

THEODORE S. SHERMAN, *Chairman.*

DANIEL W. RICKER, *Clerk.*

DAVID P. W. LOKER,

Overseers of the Poor.

REPORT OF SURVEYOR OF HIGHWAYS.

WAYLAND, February 28, 1907.

The amount appropriated for Highways and Bridges the past year was two thousand dollars (\$2,000.00). There was an unexpended balance from previous year of four dollars and fifty-four cents (\$4.54). Also the Excise Tax, amounting to five hundred and nine dollars and eighty-nine cents (\$509.89), making a total of two thousand five hundred and fourteen dollars and forty-three cents (\$2,514.43).

The total amount expended was two thousand four hundred and twenty-three dollars and sixty-seven cents (\$2,423.67), leaving an unexpended balance of ninety dollars and seventy-six cents (\$90.76). The snow bills for the year amount to two hundred and fourteen dollars and eighty-six cents (\$214.86).

Itemized bills for above amounts are on file in the Selectmen's Office.

Town of Wayland.

MICHAEL W. HYNES,
Surveyor of Highways.

REPORT OF THE BOARD OF HEALTH.

The Board of Health submits the following report :

In matters concerning the Board of Health, the past year has been exceptionally uneventful. The record of contagious diseases stands three diphtheria, one scarlet fever, eight measles. There have been numerous other cases of the contagious diseases of mild nature, especially whooping cough, which have not been reported to the Board of Health. There have been no deaths from contagious diseases.

There should be especial care taken by parents in regard to whooping cough as this disease not only predisposes to future attacks on the lungs, but by not confining the children it exposes others to needless misery and danger.

There have been several cesspools dug and put to use.

The piggeries in Wayland are in good condition, and are under frequent supervision.

Signed,

W. C. HUNTING, *Chairman.*

THOMAS BRYANT, M.D.V., *Clerk.*

W. G. JEFFERSON, M.D.

REPORT OF CEMETERY COMMISSIONERS.

The Commissioners appointed at the last annual town meeting herewith submit their first annual report.

The Commissioners met on April 7th, 1906, and organized.

The regular appropriations for Cemeteries have been judiciously expended, and with the completion of the work in the North Cemetery, for which the special appropriation of \$100.00 was made, we feel that there is cause for congratulation in the general appearance of all the Cemeteries.

In accepting the provisions of Articles 21 to 25, inclusive of Chapter 78, Revised Laws, some changes become necessary in the regulations which the town has heretofore adopted, and your Commissioners would respectfully present for consideration and adoption the following regulations, governing all the Cemeteries. Any inhabitant of the town may obtain a burial lot in either of the cemeteries, for the use of himself and family, on application to the Cemetery Commissioners, but no lots shall be sold to non-residents, and not more than one lot shall be sold to any one person.

The price at which lots shall be sold shall be regulated by the size and location of same, but in no case shall it be less than five dollars.

The Commissioners would respectfully recommend for adoption the following form of deed : —

KNOW ALL MEN BY THESE PRESENTS : —That the Cemetery Commissioners of the Town of Wayland, in the County of Middlesex, and Commonwealth of Massachusetts, in consideration of—— dollars paid to them by——the receipt whereof is hereby acknowledged, do hereby grant, bargain, sell and convey to the

Town of Wayland.

said——and——heirs one lot of land in——Cemetery in said Town of Wayland, with the sole and exclusive right of the burial of the dead therein.

The said granted lot contains about——superficial square feet, and is numbered——on the plan of said Cemetery, which is in the possession of the Cemetery Commissioners, having the superintendence and management thereof; and may be inspected by the said grantee and——heirs at all reasonable times.

To have and to hold the aforegranted premises unto the said——and——heirs forever: but subject to the restrictions, limitations and conditions, and with the privileges following, viz:—

First. That the said lot shall not be used for any other purpose than as a place of burial for the human dead; no trees within the lot or border shall be cut down or destroyed without the consent of the said Commissioners, neither shall any change be made in the grade of lots except with the approval and under the direction of the said Commissioners who may make such change when in their opinion it becomes necessary for the improvement of the Cemetery.

Second. That the proprietors of said lot shall have the right to erect monuments, cenotaphs or stones commemorative of the dead; but the foundations of all monuments and stones must have the approval of the said Commissioners, and the planting of trees and shrubs shall be under their direction.

Third. That if trees or shrubs in said lot shall become in any way detrimental to the adjacent lots, avenues or paths, or dangerous, or inconvenient, it shall be the duty of the said Commissioners, for the time being, to enter into said lot and remove said trees or shrubs, or such parts thereof as are thus detrimental, dangerous, or inconvenient.

Fourth. That if any monument, effigy, cenotaph or other structure whatever, or any inscription be placed in or upon the said lot, which shall be determined by a majority of the said Commissioners, for the time being, to be offensive or improper, the said Commissioners, or a majority of them, shall have the right, and it shall be their duty to enter upon said lot and remove said improper object or objects.

Cemetery Commissioners.

Fifth. That no tomb shall be constructed within the bounds of the cemetery, except by permission of the Commissioners, and in such manner as they shall approve. And no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire.

Sixth. The said lot shall be indivisible; and upon the death of the grantee, the devisee of said lot, or the heir-at-law, shall be entitled to all the privileges of the original grantee, and if there be more than one devisee, or heir-at-law, the said Cemetery Commissioners shall designate which of said devisees or heirs-at-law shall exercise the right of using said lot, which designation shall continue in force until, by death or removal, or other sufficient cause, another designation shall become necessary.

Seventh. Any remains of the dead deposited in said lots shall never be removed, without the consent of the Cemetery Commissioners.

Eighth. The said lot shall be holden subject to all the by-laws, rules and regulations, made and to be made by the Cemetery Commissioners.

And the said Cemetery Commissioners of the Town of Wayland hereby covenant to and with the said——and——heirs, that the said Commissioners are lawfully seized in fee simple of the aforegranted premises and the way leading to the same from the highway; that the granted premises are free from all encumbrances; that the said Commissioners have a good right to sell and convey the same to the said——and——heirs forever.

In witness whereof, the said Cemetery Commissioners of the Town of Wayland have signed these presents, and hereunto affix their seal, by the hands of a majority of the Cemetery Commissioners this——day of——in the year of our Lord nineteen hundred and

Signed, Sealed and Delivered }
in presence of }

Cemetery Commissioners of the Town of Wayland.

The Commissioners would call the attention of the Town to the fact that in the North Cemetery there remain but eleven lots

Town of Wayland.

unsold, and as it is imperative that the Town shall provide suitable burying ground, the Commissioners would respectfully recommend that inasmuch as there is within the bounds of said cemetery a wooded tract of two acres more or less, which by judicious clearing could be made available for burial lots, and be made a most attractive part of the said cemetery: that the Town appropriate five hundred dollars, that the Commissioners may have the said tract surveyed and properly laid out by a competent landscape architect, with the end in view of preparing annually a limited number of lots to meet the demand.

It is gratifying to announce that during the year the Town has received three bequests of one hundred dollars each for perpetual care of lots, making a total of six funds now in Town's Treasury for this purpose.

While naturally proprietors of lots prefer, so long as they can, to care for their own lots, the Commissioners doubt not that there are many who would be glad to avail themselves of this means for providing, after they are gone, perpetual care of their lots.

On May 5th, 1906, a communication was received from Mr. Edward E. Dammers, proposing to erect a wire fence on line between his land and Lakeview Cemetery in place of board fence, without expense to the Town.

The proposition was duly considered and accepted by the Commissioners, and the fence has been erected.

REPORT OF THE LOCAL SUPERINTENDENT OF THE GYPSY AND BROWN TAIL MOTH WORK.

In submitting my report on the Gypsy and Brown Tail Moth work, I have found that the town is generally infested. There was nothing done on the Brown Tail Moth work except on the highways, as the town was late in starting on the work in the spring. We only had time to clear the street trees, and this naturally caused quite an increase of nests in many of the orchards.

Of the Gypsy Moth, there was a general infestation in the spring, some places being quite badly infested; but in going over the trees this fall, I find that many of the places are not so bad as they were in the spring, and in some orchards there are none to be found. Quite a number of new places of light infestation have been found, which did not appear in the spring. The woodlands are generally infested, some three or four lots quite badly.

WAYLAND, March 1, 1907.

Schedule of bills of expense incurred in suppressing the Gypsy and Brown Tail Moths under the Provisions of Chapter 381, Acts of 1905.

NAME AND DESCRIPTION OF BILL.	AMOUNT.

								\$25,292 80

Finance Committee.

We recommend that the sum of ten hundred and sixty-seven dollars and eighty-nine cents (\$1,067.89) be transferred from the Contingent Fund to pay overdrafts with the exception of School Salary Act.

We recommend that the sum of four hundred and eighty dollars (\$480.00) be transferred from water rates to pay interest on water bonds.

That the Selectmen be authorized to draw from the Contingent Fund such sums of money as may be necessary, not exceeding five hundred dollars (\$500.00) for assisting needy soldiers and their families.

That the Selectmen be authorized to draw from the Contingent Fund a sum not exceeding three hundred and fifty dollars (\$350.00) for the use of the Board of Health.

That the sum of three thousand two hundred dollars (\$3,200.00) be transferred from Contingent Fund to pay interest on town debt. That the money for removing snow be drawn from the Contingent Fund. That the sum of seven hundred and sixty-five dollars and eight cents (\$765.08) be drawn from the Contingent fund for Gypsy Moth Commission.

That a sum not exceeding ten hundred and seventy-five dollars be drawn from the Contingent Fund to pay the Banks' claim to State.

PAUL T. DRAPER, *Chairman.*

DANIEL D. GRIFFIN.

L. K. LOVELL.

FRANCIS SHAW,
Treasurer.

Wayland, March 1, 1907.

REPORT OF PUBLIC LIBRARY TRUSTEES.

The number of books purchased during the last twelve months has been smaller than that of some preceding years, although an equal amount has been expended for the purpose. This has been necessary as the Trustees have seen that the Library has been falling behind in its modern books of reference, necessarily expensive books. In this age of rapid advance in all branches of knowledge and attainments, works which were standards twenty years ago are now inadequate or obsolete. To meet this deficiency, among other acquirements, a set of the fine new International Encyclopædia has been placed in the Library, bringing this department fully up to date.

Of course, as in all popular libraries, the persistent and overwhelming demand is for current fiction. Impatience is expressed if all the newly-advertised and discussed novels are not promptly supplied. While this ephemeral literature has its proper place and function, and while the Trustees are not censors of public reading, a limited appropriation for the addition of books to the Library makes it necessary that due proportion be preserved in the character of new acquisitions. Without this discrimination, the usefulness of the Library as an adequate source of both entertainment and information could not be maintained.

While, in reply to popular demand, it would be a far simpler task for the Trustees to fill the shelves of the Library with "new" novels, many of which are experimental as to success or value, than to regard the wider requirements of the institution, the duty

Town of Wayland.

of the Trustees is plain, and we do not doubt will be recognized by our citizens.

The Annual Report of the Librarian is submitted herewith.

LIBRARIAN'S REPORT.

To the Trustees of the Public Library :

The Librarian submits the following report for the year ending January 31, 1907.

Number of volumes—classified :

Fiction	3,795	
Non-fiction	9,261	
Total	13,056	
Unclassified	2,884	
Total		15,940
Number purchased	121	
Number presented	61	
Number rebound	33	
Number replaced	3	
Number destroyed	4	
Number lost	2	
Total number taken out during the year	8,016	
Number taken out through Cochituate office	1,511	
Number of juvenile taken out	1,232	
Number of cards in use	654	

The following periodicals are to be regularly found in the reading room: Harper's, Scribner's, Munsey, St. Nicholas, Atlantic, Review of Reviews, Bookman, Century, Ladies' Home Journal, Saturday Evening Post, Collier's, Youth's Companion, Woman's Journal, Our Dumb Animals, Cochituate Enterprise, Cochituate Review.

Wayland, February 13, 1907.

AUDITOR'S REPORT.

WAYLAND, March 16, 1907.

The accounts of the financial officers have been examined and found correct.

The annual returns to the State Bureau of Statistics of Labor, required under Acts of 1906, Chapter 296, have been compiled and forwarded.

The Auditor begs leave to offer the following recommendations :

1. That the vote of the Town requiring the Auditor to annually notify delinquent taxpayers be rescinded.
2. That the by-law of the Town requiring the Auditor to superintend the printing of the Town and School reports be repealed.
3. That bills against the Town be examined and approved by the Auditor before being committed to the Selectmen for payment.
4. That the date for ending the Municipal or Financial Year be changed to January 31.

FREDERICK H. FOWLER,
Auditor.

REPORT OF THE SCHOOL COMMITTEE.

To the Citizens of the Town of Wayland :—

Your committee takes pleasure in reporting that the schools are in a prosperous condition. A serious drawback to the successful accomplishment of desired results is the constant change of teachers, four teachers having resigned at Wayland Centre since the first of the year. In answer to the question often asked, namely, why the committee does not retain good teachers when it has them, we would answer that the appropriation does not admit of paying such teachers the salaries which they can obtain in many other places.

In connection with this it must not be forgotten that as citizens we all must do our part to make the teachers feel at home and contented, and so make them the less willing to leave. We would urge the people to visit the schools more frequently, that they may become better acquainted with the teachers and the work they are doing, thus assuring them of a hearty interest and support.

It is to be regretted that some of the children living here are attending school outside of the town, for it is thought that the co-operation of all the townspeople is necessary in order to secure the best results in our schools.

Special attention is called to that part of the Superinten-

Town of Wayland.

dent's report referring to the need of a new schoolhouse at Cochituate, and to that part relating to the systematizing of the course of study.

It seems unnecessary for the committee to make a more extended report, as the details are fully covered in the report of the Superintendent.

We desire to express to the Superintendent, the teachers and all others who have shown their interest in the welfare of the schools, our sincere appreciation of their efforts in the education of the children of the town.

ISAAC DAMON,
HARRY E. CARSON,
EDWARD M. BENNETT.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Committee of the Town of Wayland :

I herewith present my first annual report as superintendent of schools. It is the ninth annual report in the series since the formation of the union district for school supervision with the towns of Dover and Sudbury.

The reports of the towns of a union district are of necessity somewhat similar because of the similarity of methods in supervision and administration, and because of the tendency toward uniformity in methods, text-books, and courses of study. They differ, however, in that they endeavor to present the conditions and needs of the individual town, and wherever similarity appears it indicates a similarity of conditions, or needs, or educational policy in the administration of school affairs.

This brief report is designed to show, in part, what the schools are doing, what they need, and what is being done for their improvement in this town.

TEACHERS.

It is a pleasure to commend the efficiency of the teachers. They are devoted to their work and have a lively interest in the welfare of their pupils. They spare neither time nor effort to achieve results. They are well educated and trained in the normal school or in the school of experience,—the majority in both. They respond quickly to suggestion and are anxious to do the best work in the best way. Results are generally satisfactory and when otherwise it is more often due to conditions for which the individual teacher is not responsible.

Town of Wayland.

Education, training, and experience combined with native ability and a strong personality are necessary to produce a successful teacher. Continued success demands a progressive teacher, one who keeps in touch with educational progress and is himself a student. More and more is demanded of the twentieth century teacher.

The teacher is, therefore, entitled to increasing consideration. He has a right to the sympathetic co-operation and support of every parent and citizen. The teacher's task is difficult. Appreciation of a teacher's endeavor is the duty of every parent. There is no more effective co-operation than an active appreciation. There is nothing that costs little or much that is more helpful to a teacher than genuine appreciation heartily manifested. I urge upon parents the recognition of the teachers' work and worth and its appreciation.

TEACHERS' SALARIES.

A very practical appreciation of a teacher's work is a liberal salary. It is becoming more and more a necessity to pay higher salaries. We cannot keep our best teachers nor even secure good ones much longer at the present rate of increase in salaries and the demand for teachers in surrounding towns. Teachers are uneasy and discontented under the present condition of low salaries and high cost of living. And with reason, for recent investigations show that while the average increase in the cost of living is from 15 per cent to 20 per cent, the average increase in the salaries of teachers is only 10 per cent to 12 per cent.

The average salary paid to the regular grade teachers in this town for the present school year of thirty-seven weeks is \$394.67. This, reckoning a year of fifty weeks, or three hundred days, is an average of \$7.89 per week, or \$1.32 per day.

It appears that the yearly earnings of unskilled labor are more than the average salary of the grade teachers of this town.

"It is not to be supposed that the teacher can expect the same yearly compensation regardless of the length of the school year. But it must not be forgotten that he teaches to secure a living for twelve months. If the sum paid for the work of teaching is not

Superintendent of Schools.

sufficient for a year's support, and especially if the vacation is long, the teacher must seek other means of gaining a livelihood. Such employment is sure to be at the expense of the school work. It inevitably divides the interest of the teacher in the work of the school, or the teacher is called away entirely, and a new teacher with each new year or oftener is the result."

"The school authorities can unquestionably hire teachers at very low rates by the month, and pay for only the number of months desired, but such a policy, whether in city or country schools, is a sacrifice, not of the interests of the teachers primarily, but of those of the pupils. Experience in a teacher adds greatly to the value of the services rendered as in any skilled occupation, and teaching must be regarded as a skilled occupation. If the teacher with his experience is to be retained in the profession he must receive a sufficient remuneration for the necessary expenses of living, not for eight or nine months, but for the entire year." *

To illustrate the matter in another way, a teacher who receives a yearly salary of \$394 pays from \$225 to \$250 for living expenses and has left for clothing, travel, self-improvement, recreation, and other necessary expenses from \$144 to \$169. How much can a teacher save for the proverbial rainy day? It is true that some teachers are without cost for living expenses during vacations, but it is also true that many teachers have to assist in the support of relatives or in the education of other members of the family. In any case the balance seems a mere pittance in view of the ever increasing demands upon the teacher.

The following extracts from the Report of the Committee to Investigate the Conditions with Respect to Salaries of Teachers in Middlesex County are of interest in the present consideration.

The "Committee believes that the prevailing salaries of grade teachers to-day are not commensurate with the requirements made upon them in the way of professional equipment and standards of living."

"The better class of positions at the present time are open only

* From the Report of the Committee on Salaries, Tenure, and Pensions of the Public School Teachers in the United States.

Town of Wayland.

to those who have had a reasonably broad academic preparation, supplemented by a full course in the normal school and some successful experience in teaching. Not only are the higher standards that are being justly set by school officials in these respects compelling the would-be teachers to a larger expenditure of time and money than formerly was required in preparation, but they are also compelling those who are now in the ranks to take up special courses of study in order to be eligible to advancement."

"Again the advancement in the social standards of living in general during recent years as the natural result of the great prosperity in the business world has operated to put upon teachers the necessity for greater expenditure in the way of dress and social requirements."

"The importance of a high standard of personality and professional efficiency in the public school teaching corps is well understood."

"Low salaries for teachers mean certain inevitable results :

1. The character of those who take up the work of teaching will gradually deteriorate because many of the brightest and strongest personalities will prefer other fields of labor in which the remuneration is greater.

2. "Low salaries mean shorter periods of service by first class teachers."

3. "A prevailing low rate of wages means less ambition on the part of teachers and less opportunity for professional growth while in service, a fact that operates distinctly against the best results in our schools. A reasonably high standard of salaries, therefore, is even more important to the public than it is to the teachers themselves."

All of these facts and conclusions appear from a study of our own conditions. The loss of teachers, the difficulty of securing teachers of training and experience for the salaries paid, and the discontent of underpaid teachers,—all operate to the disadvantage of our schools.

To the credit of our teachers be it said that their labor is not measured by the money they are paid. They do their level best.

Superintendent of Schools.

They could not do more if they were paid more, but they would work with greater satisfaction and it would inevitably react to the advantage of the school.

The policy of a town should be, not to secure teachers for as little as possible in the hope of getting a good bargain, but to pay the highest salaries the town can afford for the highest and most important work of the community,—public education.

SCHOOL BUILDINGS.

The school building at Wayland is a fine edifice and well adapted to its use. It is kept in repair by a public-spirited citizen, and nothing is wanting in this respect.

In regard to the Cochituate building, I find by reference to earlier reports, dating as far back as 1901, that the building had the following deficiencies:—

1. Poor ventilation.
2. Lack of modern conveniences.
3. Poor heating facilities.
4. Lack of hall space.
5. Poor lighting.
6. Long stairways.
7. Dampness.
8. Dilapidated appearance.
9. Poor location.

These objections would appear to still hold good. The building is rapidly deteriorating and will continue to do so as long as the committee pursue their present policy, a wise one, of expending only the minimum amount for repairs. Expert opinion testifies that money cannot be economically expended upon the present building. The only thing to be said is that it would be wiser and *safer* to provide a new building before danger is incurred by fire or disease in the old one.

The recent test of the eyes of the school children shows that the per cent of defective eyesight in the grades at the Center school is 18.5, while in the Cochituate schools it is 42 per cent. The comparison is suggestive to say the least. Considering the insufficient

Town of Wayland.

light of the Cochituate school rooms, the well-lighted rooms of the Wayland school building, and the wide difference in the percentages of defective eyesight in the pupils of the two buildings, there is some reason for concluding that there is a relation of cause and effect between the poor light and the defective eyesight of the children at Cochituate.

CONSOLIDATION.

The schools of Wayland are now well consolidated. The transportation of the Lokerville pupils brings the schools all into two buildings. The size of the grades is not exactly adapted to convenient arrangement, but by the division of one grade the classes were so placed that no teacher has more than forty pupils or less than twenty-two.

ATTENDANCE.

Every effort is being made to improve the attendance and punctuality. The rank of the schools for 1905-1906 appears in the appendix. A monthly attendance bulletin is issued during the present year. The pupil is encouraged to make a good record for the honor of his school as well as for the credit of having his name upon the roll of honor. This furnishes a broader and perhaps a better motive for continued good attendance and punctuality.

COURSE OF STUDY.

It seemed to be the opinion of all concerned that the course of study for the grades needed revision and elaboration. This is under way, and the preliminary outline for arithmetic has been placed in the hands of the teachers. It is designed to make the outline in each subject as definite, explicit and comprehensive as possible, so that each teacher may know exactly what is expected in each course; to construct the course after a modern and practical plan, and to arrange it so that the pupils may be strictly up to grade in all subjects. It may take some time to bring these things to pass, but it is entirely possible.

The course of study is not designed to be inflexible nor fixed in

Superintendent of Schools.

regard to order, or time, or method. Classes are to progress according to their ability. The subjects are to be arranged by grades and years, but no class is to be obliged to take more or less than it is able to do in a given time. The only requisite is that the progress of each class be well balanced in the course of study. The only requirement as to order of sequence is that it be logical and adapted to the capacity of the grade. The teacher has large freedom in the choice of method or device only that it be logical and psychological.

The outlines will be worked out as rapidly as possible and put into operation, together with such additional aids as may be necessary to make their use effective.

MEDICAL INSPECTION.

The law relating to medical inspection in the schools (see appendix) is now in operation in so far as it can be until an appropriation is made. The teachers have nearly completed the tests of sight and hearing as required by the law. The number of pupils already tested is 346. Of these 109, or 31.5 per cent, were found defective in sight, and 40, or 11.6 per cent, were found defective in hearing.

Parents whose children were reported as defective are urged to serious and immediate consideration of the matter. Defective eyesight is often the cause of headache, apparent dullness, and lack of interest in school work.

In order that the school physician required by law may perform his duties an appropriation is necessary. It may be observed that no large sum is needed. There are comparatively few times a year when it would be necessary for the teacher to call the school physician for the examination and diagnosis of a case, but there might be times of urgent necessity, especially in the case of contagious diseases. Timely attention is preventive of epidemic, and it is a matter of economy as well as public health. It should be clearly understood that the school physician is not authorized by the law to treat cases, but only to examine, diagnose and report. The law is carefully framed to safeguard the rights of the individual and the health of the community.

Town of Wayland.

UNION MEETINGS.

The union teachers' meetings of the district have been held as usual. These meetings have been well attended and very profitable. The following topics have been presented: —

“Birds of Spring,” by Mr. Charles Maynard, Naturalist, of Newton, Mass.

“The Teachers' Relationships,” by Mr. W. D. Parkinson, Superintendent of Schools, Waltham, Mass.

“Arithmetic,” by Mr. A. L. Barbour, Superintendent of Schools, Natick, Mass.

“The Use and Abuse of Suggestion in the Schoolroom,” by Mr. F. E. Parlin, Superintendent of Schools, Quincy, Mass.

“Visualization,” by Mr. J. W. McDonald, Agent of the State Board of Education.

“Some Phases of Art Education,” by Mr. Frederic L. Burnham, Agent of the State Board of Education for the Promotion of Manual Arts.

These addresses have been very appropriate and practical, not only to the teachers but to all who have heard them. These meetings are open to the public and the attendance of parents and all interested in the public schools is particularly desired. The meetings are designed, of course, to be of special value to the teachers, but they are interesting to the general public and especially so to those who wish to keep informed upon matters relating to the public schools.

Conference and sociability are features of the meetings, and there is abundant opportunity to meet the teachers and the members of the school committee.

SYSTEM IN SCHOOL ADMINISTRATION.

It is apparent that there is a necessity for a certain amount of system in the administration of school affairs. Possibly one of the most unfortunate features of our present school conditions is the frequent change of teachers and school officials. Changes, of course, are inevitable and sometimes necessary. Such changes involve more or less changes in plans and methods of work, but it

Superintendent of Schools.

would seem desirable to diminish these changes as much as possible, unless it can be clearly shown that they are for the good of the schools.

It is important in this connection that a teacher or school official be able to acquaint himself readily with the working order of the school or school system so that he may direct his efforts in harmony with the general plan and policy of its conduct and administration. When necessary changes occur there should be as little break in the continuity of the work as possible.

To this end I have endeavored to organize the present customs, plans and methods as I have found them, together with such modifications and additions as seen advisable after due consideration, into a definite system of method and administration. This has resulted in the statement of some rules and regulations, together with "directions, suggestions and information designed to give uniformity in those things wherein uniformity is desired, to answer various questions that are often asked for information, and to serve to acquaint new teachers with the general working of the school system." These are to be placed in the hands of the teachers in the form of a portfolio with the above quotation as an introduction. This, I believe, will be of great assistance to the teachers and to the school officials.

THE PRESENT YEAR'S WORK.

Among the many things that we are trying to do this year, some of which have been referred to, are :

1. To bring the classes to a higher grade in the course of study.

2. To improve the quality of the work.

3. To raise the standard for promotion.

Especial attention is being given to the promotion prospects of the pupils throughout the year so that they may not be disappointed in their expectations of promotion at the end of the year in case of failure.

4. To improve the reading in the lower grades.

5. To improve the writing.

6. To improve the form of the written work.

Town of Wayland.

7. To improve the conduct and method of the recitation.
8. To revise the course of study in Arithmetic.
9. To systematize the administration of school affairs.
10. To make an inventory and record of books and supplies.
11. To improve the attendance and punctuality.
12. To keep a record of the progress of each grade.

In general, it may be said that we are trying to make the work more thorough. We put emphasis upon quality rather than upon quantity. We want the pupils to know what they learn and to be able to use it; to do their work well; to make practical use of their knowledge; and to be fitted for the next work they have to do.

TO PARENTS AND CITIZENS.

In this, my first report, I wish to urge upon the parents and citizens a very positive and active interest in the schools. The schools belong to the citizens. They have a right to determine what they shall be. They will probably be no better than the public demands, because public support is essential to good schools.

The people should visit the schools and see what they are doing. They have a right to ask why, and to insist upon results. The superintendent is always ready and desires to answer questions and hear just complaints. Moreover, he desires to know the views and wishes of parents and citizens. Opportunity will be given for the closer acquaintance of parents and the schools, and every possible effort will be made for sympathetic and harmonious co-operation.

CONCLUSION.

In conclusion, I wish to express my appreciation of the consideration and kindness shown me by the school committee, the supervisors, the teachers, the pupils, and the parents and citizens of the town, and the hope that through the active co-operation of all concerned the work of the schools may be strengthened, and the standard of efficiency be brought to a still higher rank.

Attention is directed to the reports of the supervisors, the high and grammar school principals, and the truant officers, and to the various statistics and tables that appear in the appendix.

Respectfully submitted,

REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL.

To the Superintendent of Schools : —

I have to report a very gratifying improvement in the High School. The graduating class last June was the largest in the school's history. A fair percentage of its members is now attending colleges or normal schools.

The course of study now in use seems broad and thorough. The doubling of available typewriting practice periods has shown immediate and very encouraging results.

Raising the standard of promotion from 65 to 70 has been followed by two natural results: a decrease in membership and a very perceptible improvement in the grade of work presented.

We have been most unfortunate in losing the assistant teachers who recently left us for better positions. Such losses are felt both by the school and by the pupils. It takes a new teacher and her classes nearly a month to become acquainted.

The question which needs most attention is attendance. Poor attendance always brings to the teacher broken class work, extra work out of school hours to help the pupil who has been absent, in general,—unfinished product. To the pupil it means that some work is not understood, extra time to make up work lost, or no credit for the time lost. For the sake of the pupil alone lax attendance should be cured. The only cure for needless absence and careless tardiness seems to be through the parents. A parent who will see to it that his child is absent, tardy or dismissed only when that is absolutely necessary, and who will realize that time so lost is a *real* and hopeless loss, will do much to help us abolish our greatest present evil.

Town of Wayland.

Finally, I wish to convey to the townspeople, for the teachers and myself, our deepest gratitude for a most sincere and encouraging spirit of *work* in the High School. For this spirit which makes a pupil work not against us but *for* us, I thank the parents.

Respectfully,

HAROLD M. JONES.

REPORT OF THE PRINCIPAL OF THE COCHITUATE GRAMMAR SCHOOL.

To the Superintendent of Schools :—

I herewith submit to you a report of the conduct of the Cochituate Grammar School since September, 1906.

The pupils of Cochituate came together under one roof for the first time for a number of years in September. Since that time the work has progressed with harmonious relations between principal and teachers and teachers and pupils.

The work for the year has been planned according to the course of study and has followed that as closely as practicable in all grades.

One visiting day and two union conventions have given the teachers a profitable change from the school-room routine.

With the exception of the week school was closed for repairs on the boiler, no time has been lost on account of cold rooms.

A change of text books in spelling seems advisable to all the teachers at Cochituate. Text books in physiology and hygiene and in nature study for teachers' use are desired to make the work more uniform and progressive.

An effort is being made to impress upon the pupils in all grades that punctuality is essential, and that satisfactory evidence of industry and work done must be given the teacher in order to insure promotion. The parents are earnestly requested to co-operate with the teachers in this effort.

In concluding this report, I desire to thank the pupils and the teachers for their co-operation and support.

Respectfully submitted,

MERITT JENKINS,

Principal.

REPORT OF THE SUPERVISOR OF DRAWING.

To the Superintendent of Schools :

It has been the aim for the present school year to simplify the work in the drawing course, to try and have children understand and do a few things and do these well, by changing the manner and the means of presentation, thus preventing the work from becoming monotonous.

While learning a few truths that govern this "means of expression" the child unconsciously learns to appreciate the good in things around him. This was plainly evident in the fall work when pupils were asked to collect good examples of magazine illustrations, looking for the color and drawing. In some of our present day publications may be found excellent illustrations, the work of some of the best illustrators being found in the lower priced magazines. All of these works cannot be called masterpieces of art but some of these are masterpieces in the line of illustrating. If the children can learn to find out the good in these, they will in time learn to know and enjoy the higher expressions.

In the lower grades the work has been centered around one topic for a month, drawing from memory, from the thing in view, then constructing the object. Construction holds an important place in our every day work; having the power to create form, to actually make a thing that he can hold in his hand is a delight to a child. In doing this a better conception of the idea which the thing expresses is obtained, and then it is possible to make a better and clearer picture of that thing.

It will be a year or two still before the work in the High School

Supervisor of Drawing.

can be adjusted to form a systematic course in both phases of the work, the mechanical and the free hand course. But conditions are quite encouraging. More periods are allowed for the work, therefore more pupils are enabled to arrange their courses to include the drawing. It is the desire, not to think of the course that may be fulfilled in the future, but to assist the pupils to understand the work carried on at present, to have each pupil know what he is doing and why.

I thank the superintendent and the committee for their assistance in making possible the work accomplished. I wish also to extend my sincere thanks to the teachers for their efforts in the work.

Respectfully submitted,

MARY J. STICKNEY.

REPORT OF THE SUPERVISOR OF MUSIC.

To the Superintendent of Schools :

I herewith submit my annual report of the music in the public schools of Wayland.

The plan of work followed this year is somewhat different from that of last year. "The Normal Course" instead of the "Natural" is now used. Outlines covering a full year's work in this course were given in each grade. As the outlines are carefully graded the results in music are much more satisfactory.

Music rightly taught makes the child an active, independent worker. In this study he finds himself gaining power from day to day—power to do today what he could not do yesterday.

From his own voice he may hear pleasant tones instead of harsh, unpleasant noises. To cultivate pleasant tones, songs that appeal to the children are given as supplementary work.

These songs the children sometimes sing in church or Sunday School, or perhaps they may teach them to their younger associates, thus becoming useful and helpful members of society.

I wish to thank the teachers for their untiring efforts in the work, and the committee and superintendent for their hearty co-operation

Respectfully submitted,

AGNES E. BOLAND

Report of Truant Officers.

REPORT OF TRUANT OFFICERS.

To the Superintendent of Schools :—

DEAR SIR :—I hereby present the following report of the absences and truancy for the year beginning March 1, 1906, and ending February 28, 1907 :—

Number of absences reported.	.	.	.	.	.	.	20
Number of cases investigated	.	.	.	.	.	.	20
Number absent with legal excuse	.	.	.	.	.	.	none
Number absent for miscellaneous reasons	.	.	.	.	.	.	12
Number absent to work	.	.	.	.	.	.	3
Number absent for lack of clothing	.	.	.	.	.	.	1
Number of truants	.	.	.	.	.	.	4
Number of visits to factories	.	.	.	.	.	.	2
Found working without certificate	.	.	.	.	.	.	none

Respectfully submitted,

J. F. BURKE.

To the Superintendent of Schools :—

DEAR SIR :—During the past year I have had six cases of absences to investigate and found no case of truancy.

Respectfully submitted,

J. C. VINCENT.

RULES AND REGULATIONS.

ATTENDANCE.

1. Excuses for absence may be granted by the teachers for the following causes only : — The pupil's sickness or physical disability, death in the family or other extreme emergency, contagious disease or quarantine.

Note. Lack of clothing, helping at home, running errands, visiting, and the like, are not accounted sufficient cause for absence.

2. In case of extreme necessity, the superintendent may grant excuses for special cause.

3. Any pupil not in his seat at the stroke of the last bell, promptly at the hour for school to begin, shall be considered tardy.

Exception. Pupils who are late because of the late arrival of barges or electric cars shall not be considered tardy, unless they loiter or delay after arrival.

4. Excuses for tardiness may be granted at the discretion of the teacher.

5. Any pupil having been absent shall be required to bring a written excuse from parent, or guardian, stating the reason for the absence. In case the written excuse is not brought, the absence will stand unexcused.

6. All absences excused must be so recorded in the register.

7. When a pupil is apparently absent without sufficient cause, the teacher shall notify the truant officer promptly.

8. Pupils under five years of age will not be admitted, except by permission of the school committee. (Children who are five years old by the end of the fall term will usually be admitted.)

Town of Wayland.

9. Children will be admitted to the first grade only at the beginning of the fall term, except by special permission of the school committee. ("The beginning of the fall term" will include the first two weeks.)

10. Pupils who enter a school in town for the first time must present a vaccination certificate properly filled out and certified, or a certificate stating that the pupil is an unfit subject for vaccination, before being admitted.

11. Pupils who are perfect in attendance and punctuality for any school month may be dismissed one hour before the close of school on the afternoon of the last school day of the school month.

12. Any pupil outside of school age, less than seven or more than fourteen years of age, who is absent unexcused for more than five whole days or ten half days in any period of six months may be suspended until assurance is given of regular attendance.

SCHOOL SESSIONS.

1. WAYLAND: High School— 8.45 A. M to 1.15 P. M.
(Ten minutes for recess.)
Grades— 8.45 A. M to 2.15 P. M.
(Fifty-five minutes for recesses, physical culture, and intermission.)

COCHITUATE: Grades— 9.00 A. M to 11.30 A. M.
1.00 P. M. to 3.30 P. M.
(Twenty-five minutes for recesses and physical culture.)

2. The school hours as indicated must be strictly observed.

3. Pupils in the first grade may be dismissed at recess during the first and second school months, and fifteen minutes before the close of the session thereafter.

4. The bell shall be rung five minutes before the beginning of the school session, and the pupils shall at once enter the schoolroom and take their seats ready for work. The last bell *promptly on time* shall be the signal for the school exercises to begin.

Rules and Regulations.

5. The door shall be opened at least fifteen minutes before the beginning of the school session.

6. Teachers may detain pupils after school or in extra session for the purpose of making up lost time or deficiency in lessons or application for a time not to exceed one-half hour in the grades and one hour in the high school, except in case of pupils who are carried by barge.

Note:—Pupils in the grades at Wayland may go home for luncheon at intermission on condition that they are not tardy for the afternoon session.

TRUANT OFFICER.

1. It shall be the duty of the truant officer to investigate fully each case of truancy, to take such action as the circumstances warrant and the law directs, and to report the results of his investigation to the teacher and to the superintendent.

2. He shall exert all possible influence with the parents and guardians to secure the regular attendance of their children.

3. He shall present an annual report of his doings to the school committee on the 1st day of March of each year, giving the number of cases investigated and the action taken thereon, together with such additional information as he may deem advisable, or the school committee may require.

EXTRACTS FROM SCHOOL LAWS ATTENDANCE.

(Revised Laws, Chapter 44.)

By chapter three hundred and twenty, acts of 1905, section one of chapter forty-four, is amended to read, in part, as follows:—

From section 1. “Every child between seven and fourteen years of age, and every child under sixteen years of age who cannot read at sight and write legibly simple sentences in the English language, shall attend some public day school in the city or town in which he resides during the entire time the public day schools are in session . . .” Every person having under his control a child as described in this section shall cause him to attend school as herein required, and if he fails for five day sessions or ten half-day sessions within any period of six months . . . to cause the child to attend school he shall . . . be punished by a fine of not more than twenty dollars . . .”

The attendance of a child shall not be required: (a) “If attending a private day school approved by the school committee,” or is being “otherwise instructed . . . in the branches of learning required by law”; (b) “If he has already acquired such branches of learning”; (c) “If his physical or mental condition is such as to render such attendance inexpedient.”

TRUANCY.

(Revised Laws, Chapter 44.)

From section 3. “A child between seven and fourteen years of age who wilfully and habitually absents himself from school . . . shall be deemed to be an habitual truant, and . . . may, if a boy,

Extracts from School Laws.

be committed to a county truant school . . . and, if a girl, to the state industrial school for girls . . . ”

From section 4. “A child between seven and sixteen years of age who may be found wandering about the streets or public places, . . . having no lawful occupation, habitually not attending school, and growing up in idleness and ignorance, shall be deemed to be an habitual absentee, . . . ” and is liable to commitment as in section three.

From section 5. “A child under fourteen years of age who persistently violates the reasonable regulations of the school which he attends, or otherwise persistently misbehaves therein, so as to render himself a fit subject for exclusion therefrom, shall be deemed to be an habitual school offender; . . . ” and be liable to commitment as in section three.

EMPLOYMENT.

(Revised Laws, Chapter 106.)

By chapter two hundred and sixty-seven, Acts of 1905, section twenty-eight of chapter one hundred and six is amended so as to read, in part as follows :

Section 28. No child under the age of fourteen years and no child who is over fourteen and under sixteen years of age who does not have a certificate as required . . . certifying to the child's ability to read at sight and to write legibly simple sentences in the English language shall be employed in any factory, workshop or mercantile establishment . . .

2. No certificate (age and schooling) . . . shall be approved by any person for a minor under the age of sixteen years who intends to be employed in a factory, workshop or mercantile establishment, unless such person is satisfied that such minor is able to read at sight and to write legibly simple sentences in the English language.

From Section 29. “No child under sixteen years of age shall be employed in a factory, workshop or mercantile establishment unless his employer procures and keeps on file . . . an age and schooling certificate . . . ”

Town of Wayland.

From Section 30. "An age and schooling certificate shall be approved only by the Superintendent, or by a person authorized by him in writing . . ."

From Section 32. "The age and schooling certificate of a minor under sixteen years of age shall not be approved and signed until he presents to the person who is authorized to approve and sign it an employment ticket duly filled out and signed . . ."

Children between fourteen and sixteen years of age who apply for an age and schooling certificate must bring an employment ticket properly filled out by their intending employer and be accompanied by parent, guardian or custodian. Employment ticket blanks may be procured from the superintendent.

CONTAGIOUS DISEASES

(Revised Laws, Chapter 75.)

From section 51. "The board of health . . . shall give immediate information to the school committee of all contagious diseases . . . reported to them."

(Revised Laws, Chapter 44.)

By chapter three hundred and seventy-one, Acts of 1906, section six of chapter forty-four is amended to read as follows:

Section 6. "A child who has not been vaccinated shall not be admitted to a public school except upon presentation of a certificate signed by a regular practicing physician that he is not a fit subject for vaccination. A child who is a member of a household in which a person is ill with small-pox, diphtheria, scarlet fever, measles, or any other infectious or contagious disease, or of a household exposed to such contagion from another household as aforesaid, shall not attend any public school during such illness until the teacher of the school has been furnished with a certificate from the board of health of the city or town, or from the attending physician of such person, stating that the danger of conveying such disease by such child is passed."

MEDICAL INSPECTION.

(Acts of 1906, Chapter 502.)

From section 1. "The school committee of every city and town in the Commonwealth shall appoint one or more school physicians, shall assign one to each public school within its city or town, and shall provide them with all proper facilities for the performance of their duties . . .

From section 2. "Every school physician shall make a prompt examination and diagnosis of all children referred to him as hereinafter provided, and such further examination of teachers, janitors and school buildings as in his opinion the protection of the health of the pupils may require."

From section 3. "The school committee shall cause to be referred to a school physician for examination and diagnosis every child returning to school without a certificate from the board of health after absence on account of illness or unknown cause; and every child in the schools under its jurisdiction who shows signs of being in ill health or of suffering from infectious or contagious disease, unless he is at once excluded from school by the teacher . . ."

From section 4. "The school committee shall cause notice of the disease or defects, if any, from which any child is found to be suffering to be sent to his parent or guardian. Whenever a child shows symptoms of smallpox, scarlet fever, measles, chicken pox, tuberculosis, diphtheria or influenza, tonsilitis, whooping cough, mumps, scabies, or trachoma, he shall be sent home immediately, or as soon as safe and proper conveyance can be found, and the board of health shall be at once notified."

From section 5. The school committee of every city and town shall cause every child in the public schools to be separately and carefully tested and examined at least once every school year to ascertain whether he is suffering from defective sight or hearing or from any other disability or defect tending to prevent his receiving the full benefit of his school work, or requiring a modification of the school work in order to prevent injury to the child or to secure the best educational results. The tests of sight and hearing shall be

Town of Wayland.

made by teachers. The committee shall cause notice of any defect or disability requiring treatment to be sent to the parent or guardian of the child, and shall require a physical record of each child to be kept in such form as the state board of education shall prescribe."

From section 7. "The expense which a city or town may incur . . . shall not exceed the amount appropriated for that purpose . . . The appropriation shall precede any expenditure or any indebtedness which may be incurred under this act, and the sum appropriated shall be deemed a sufficient appropriation. . . ."

Financial Statement.

FINANCIAL STATEMENT.

Fiscal Year, March 1, 1906, to March 1, 1907.

The following named amounts were approved for payment to the persons, firms and corporations against whose names they are severally set, from the several school accounts as indicated, viz. : --

OFFICIAL REPORTS
OF THE
Town of Wayland

FOR ITS
One Hundred and Twenty-eighth
Municipal Year

FROM
FEBRUARY 28, 1907 TO MARCH 1, 1908

CAMBRIDGE, MASS.
PRINTED BY J. FRANK FACEY
1908

Town Warrant.

ANNUAL TOWN MEETING, MARCH 23, 1908.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

MIDDLESEX, SS.

To either of the Constables of the Town of Wayland in said County.

Greeting :

In the name of the Commonwealth of Massachusetts you are required to notify and warn the inhabitants of the town of Wayland qualified to vote in Town affairs to meet the voters of Precinct One at the Town Hall, the voters of Precinct Two at the Engine House on Monday, March 23, 1908, at 6 o'clock in the forenoon to give in their votes for

A Moderator for one year.

Three Selectmen for one year.

Town of Wayland.

A Town Clerk for one year.

A Town Treasurer for one year.

A Collector of Taxes for one year.

An Auditor for one year.

An Overseer of the Poor for three years.

A Treasurer of Library Funds for one year.

A School Committee for three years.

An Assessor for three years.

A Water Commissioner for three years.

Two Trustees of the Public Library for three years.

A Tree Warden for one year.

A Surveyor of Highways for one year.

A Sinking Fund Commissioner for three years.

One member of the Board of Health for three years.

One Cemetery Commissioner for three years, and seven Constables for one year. Also to vote "Yes" or "No" on the question: Shall licenses be granted for the sale of intoxicating liquors in this Town?

The polls will be opened at 6.10 o'clock A. M., and may be closed at 2 P. M. unless otherwise ordered by the voters present.

You are also required to notify and warn the inhabitants of said Wayland qualified to vote in Town affairs to meet at the Town Hall in said town on Wednesday, March 25th, current, at 7.30 o'clock P. M., there and then to act on the following articles:

ARTICLE 1. To hear the report of the Town Officers, Agents and Committees and act thereon.

ART. 2. To choose all necessary Town Officers, Agents and Committees.

ART. 3. To grant money for any and all necessary town purposes.

ART. 4. To authorize the Selectmen to consult counsel on all important town matters, and to employ counsel and defend any action at law or suit in equity that may be brought against the town.

Town Warrant.

ART. 5. To see if the town will accept the list of jurors as prepared by the Selectmen for the ensuing year.

ART. 6. To appropriate the money received from dog licenses.

ART. 7. To authorize the Town Treasurer, with the approval of the Selectmen, to borrow, during the municipal year beginning March 1st, 1908, in anticipation of the collection of taxes of said year, such sums of money as may be necessary for the current expenses of the town, but not exceeding the total tax levy for said year, giving the notes of the town therefor payable within one year from the date thereof, all debts incurred under authority of this vote shall be paid from the taxes of the present municipal year.

ART. 8. To see if the town will accept the following bequest: — \$100.00 from Miss Mary E. Reeves, received July 2d, 1907, donated to the Town of Wayland as a fund to be known as the Henry Reeves Fund, the income from which is to be used for the perpetual care of lots 147 and 148 in the North Cemetery, said lots being deeded to Henry Reeves.

ART. 9. To see if the town will appropriate the sum of \$500.00 to build a gravel sidewalk on the south side of West Plain Street in the village of Cochrane, or do or act.

ART. 10. To see if the town will vote to authorize the Board of Fire Engineers to use the old library room in the Town Hall as an engine house, for housing the new Combination Chemical and Ladder Truck, and for Fire Company meetings, make the necessary alterations, and change the driveway, or do or act.

ART. 11. To see if the town will vote to sell its interest in the real estate devised to it by the late Abbie M. Heard, and appoint an agent to execute a deed therefor.

ART. 12. To see if the town will vote to instruct the Selectmen to petition the Highway Commissioners for the purpose of constructing a section of the State Highway through Main Street, Wayland, leading from Cochrane to connect with highway at Natick.

And you are required to serve this warrant by posting a copy

Town of Wayland.

thereof attested by you at each of the Post Offices, at the Engine House, and at the Town House in said town, seven days at least before the time appointed for said meeting.

Hereof fail not and make due return of this warrant with your doings thereon to the Town Clerk on or before Saturday, March 21.

Given under our hands this tenth day of March in the year of our Lord one thousand nine hundred and eight.

ALFRED T. DEAN,
ALBION F. PARMENTER,
Selectmen of Wayland.

ELECTION OFFICERS. PRECINCT 1. Warden, J. I. Bryden; Clerk, William Stearns; Inspectors, C. H. Richardson, H. C. Haynes, William H. Campbell, William Sanderson. PRECINCT 2. Warden, H. G. Dudley; Clerk, C. E. Coakley; Inspectors, Felix Noel, George S. Scott, A. B. Neal, Hugh McPartlin.

In accordance with a vote of the Town, additional electric lights have been installed as follows: On the Island Road, Wayland, five lights. On Main Street, Wayland, one light beyond present line. On Concord Road, Wayland, five lights. On German Hill Street, one light. On Damon Street, one light. On West Plain Street, Cochituate Village, eight lights.

Town of Wayland.

The sidewalk on Pond Street, from Main Street to Granny Pond (so called) has been built as far as advisable at a cost of \$512.37.

In regard to the claim of Joseph T. Minon against the Town of Wayland, the Selectmen have employed counsel, and acting on his advice have not paid the claim. The following is a copy of the opinion rendered :

BOSTON, MASS., May 7, 1907.

ALFRED T. DEAN, Esq.,

Chairman of the Board of Selectmen of Wayland.

DEAR SIR :

I have considered the questions submitted to me by you in relation to the claim of Joseph T. Minon against the town of Wayland, namely :—

1. Whether the vote of March 26, 1906, by which it was voted to appoint Mr Minon “ Agent of the town to take care of the rights of our citizens in the matter of boating, skating and fishing on Lake Cochituate ” and

2. Whether the vote of March 25, 1907, by which it was voted that “ The sum of eight hundred dollars be appropriated and assessed to reimburse Joseph T. Minon as agent of the Town for counsel fees paid in defending the boating rights of the citizens of Wayland in Lake Cochituate ”? are valid votes and constitute a legal appropriation of public money which entitles Mr. Minon to demand the money so appropriated from the town.

I find no statute specifically authorizing the appointment of such an agent or allowing public money to be appropriated for such a purpose. If, therefore, the authority exists it must be found in the general clause of the statute giving power to towns to raise money for “ all other necessary charges arising in such town.”

The “ Necessary charges ” mentioned in this clause have been uniformly construed and held to be restricted to matters in which the town has in its corporate capacity a duty to perform, an interest to protect, or a right to defend and not to extend beyond what is necessary to accomplish these purposes.

The town of Wayland has no more or greater corporate duty to take care of or protect the boating, skating and fishing rights of

Report of Selectmen.

her citizens on Lake Cochituate than it has to protect and take care of any other rights, legal or otherwise, which her citizens may have. Such rights are left by law to be asserted and vindicated by the individuals claiming them and those who wish to indulge in the luxury of counsel to assist them in their controversies have no just cause of complaint if left to discharge the obligation such a luxury entails. Nor has the town in its corporate capacity any interest in Lake Cochituate to protect, or any right to defend. It is a "Great Pond" within the meaning of the law and as such is under the control and is owned by the Commonwealth as public property held in trust for public uses, except in so far as the ownership and control has been surrendered for the purposes of a water supply, but whether so surrendered or not the town has no vested property rights or interest in it.

It follows that the town had not authority to pass either vote, that the attempted appropriation of the money was and is invalid, ineffectual and void, and that Mr. Minon has no claim against the town under the votes referred to.

Very respectfully,

(Signed) P. H. COONEY.

We have perambulated the Town line between Framingham and Wayland. The boundary stones were located and found to be in good condition.

We have been compelled to overdraw the incidental account.

This was made necessary by drawing on this account for insurance to the amount of \$682.80, and for new Town Scales at Cochituate to the amount of \$243.63.

The following is an extract from the report of the County Commissioners: The repairs ordered by the Board at Sherman's bridge across the Sudbury river between Wayland and Sudbury were not done by the towns up to last spring and the Board called the Selectmen of the two towns in, to endeavor to arrange for the work. It was finally decided in view of the nature of the repairs, that the work should be done by some competent contractor on the basis of actual cost of labor plus 15 per cent. and the actual cost of materials.

Town of Wayland.

Mr H. W. Tarbell of Lowell furnished the necessary labor, and the work was performed under the direction of our engineer. The old wooden bridge, about 100 feet in length, was almost entirely replaced, new piles being driven and new lumber used. The stone abutments were relaid in Portland cement mortar, railings erected and the approaches graded and surfaced. The total cost of the work was \$3,239.18 and \$1,079.73, or one-third the expense, was borne by each town and by the county respectively.

ALFRED T. DEAN,
ALBION F. PARMENTER,

Selectmen of Wayland

NATHANIEL R. GERALD,
DANIEL BRACKETT,
ALFRED A. CARTER,

Assessors of Wayland.

REPORT OF SURVEYOR OF HIGHWAYS.

WAYLAND, February 29, 1908.

The amount appropriated for Highways and Bridges was two thousand dollars (\$2,000.00). There was an unexpended balance from previous year of ninety dollars and seventy-six cents (\$90.76) making a total of two thousand and ninety dollars and seventy-six cents (\$2,090.76).

The total amount expended was two thousand five hundred and ninety-six dollars and four cents (\$2,596.04), making an overdraft of five hundred and five dollars and twenty-eight cents (\$505.28).

The snow bills for the year amount to one hundred and thirty-eight dollars and fifty-three cents (\$138.53). Itemized bills for above amounts are on file in the Selectmen's office.

The overdraft of \$505.28 is explained by the fact that the Natick and Cochituate Street Railway Excise Tax was not paid at the usual time (before close of our Municipal year). When this is turned into the Town Treasury this account will show a balance of \$3.07. But the railway people say they cannot pay it before April 1st.

REPORT OF THE BOARD OF HEALTH.

The Board of Health submits the following report : —

During the past year the following diseases have been noticed :

Diphtheria, one case.

Scarlet Fever, two cases.

Measles, eight cases ; several not reported.

Mumps, two cases ; several not reported.

Improvements have been made in the piggeries, and several cesspools have been put in the past year.

Very few cases of malaria have been observed.

Signed,

W. C. HUNTING, *Chairman.*

M. C. BALDWIN.

THOMAS BRYANT, *Clerk.*

Overseers of the Poor of Wayland.

REPORT OF CEMETERY COMMISSIONERS.

The annual appropriation for care of cemeteries has been carefully expended, and the general appearance of the cemeteries indicates that there is a slow but steady increase of interest by owners and proprietors for the better care and appearance of their lots. This certainly is an encouraging feature.

During the year the town has received an additional bequest of one hundred dollars for perpetual care of lot, making seven funds now in the town's treasury for this purpose. Your commissioners earnestly recommend all proprietors to make such provision for perpetual care of their lots.

The work on the extension of the North Cemetery has progressed favorably. The rougher part of the work in carrying forward the plans adopted, by the removal of trees and stumps, laying out the avenues and paths, is well advanced and bespeaks the ultimate attractiveness of the place.

3d. WILLIAM S. LOVELL.

REPORT OF PUBLIC LIBRARY TRUSTEES.

The most notable feature of the administration of the Library during the last year has been the installation of the Branch Library and Reading Room at Cochituate. By vote of the town at the annual meeting held March 25, 1907, \$1,000 was appropriated for this purpose, the amount being placed in the hands of the Library Trustees for expenditure at their discretion.

The first action of the Trustees was to appoint a committee to ascertain the wishes of the citizens of Cochituate in regard to the proposed Reading Room and to formulate plans for its establishment and maintenance. This committee reported interviews with citizens, notably the Executive Committee of the Men's Union, and considered several eligible locations, finally recommending that the store formerly occupied by Mr. N. R. Gerald on Main Street, then available for rental, be secured. The committee suggested that an Assistant Librarian be employed, that the room be comfortably and attractively fitted up, that it be supplied with a liberal assortment of current periodicals, reference books, a dictionary, a set of standard encyclopædias, and that a certain number of books of a general character be purchased and placed upon shelves, as the nucleus of a larger collection. It was further suggested that the room be open Wednesdays and Saturdays, afternoon and evening, and Thursdays in the evening, during the summer, and every evening during the winter, from October 1st to April 1st.

The provisions of this report were all adopted by the Trustees. Seventeen periodicals were subscribed for and some two hundred and fifty volumes purchased.

The Reading Room was opened to the public on July 10. The

Public Library.

use of the room has shown a steady increase, and the Trustees believe it to be satisfactorily serving its excellent purposes.

The Superintendent of Schools has communicated with the Library Trustees during the year, suggesting lists of books to be added to the Library which would be of value in connection with the school work. Such co-operation with the schools is very desirable. Apart from the benefits accruing to the schools, the habit of using the Library by the rising generation is inculcated, which is no unimportant feature of a comprehensive modern education.

The Trustees are glad to receive suggestions of books desired by any of the townspeople, and to add them to the Library if considered suitable.

The Annual Report of the Librarian to the Trustees is submitted herewith.

ARTHUR G. BENNETT, Chairman.

ALFRED W. CUTTING, Secretary.

Town of Wayland.

REPORT OF WATER COMMISSIONERS.

To the Citizens of the Town of Wayland:

Your commissioners herewith submit the following annual report for the year ending February 29, 1908:—

The board organized with Clarence S. Williams, chairman; and Bryant M. Bailey, clerk. It was thought best to appoint a superintendent outside the board, and Patrick A. Leary was appointed.

The commissioners having received instructions by vote taken at Town Meeting to make the needed improvements at the Basin, work was started last October and will be continued this year.

For further information we refer you to the account of the Superintendent.

WAYLAND WATER COMMISSIONERS,

IN ACCOUNT WITH FRANK E. YEAGER, Town Treasurer, Dr.

Respectfully submitted,

BRYANT M. BAILEY,

Clerk.

REPORT OF THE SUPERINTENDENT OF THE WAYLAND WATER WORKS.

Upon taking my position as Superintendent of the Wayland Water Works I made an inventory of all tools and materials turned over to me from the former incumbent and gave the same to the Water Commissioners. I needed a number of new tools which were bought.

After lowering level of water to its original height all the brush was cut and cleaned away from the water's edge, and raked out of the water from the lower main basin and brook to Rice Spring. This work was done immediately after the regular town meeting, costing about one hundred and fifty dollars, which was charged to the maintenance account. Great improvement was noticed in the water immediately.

Arrangements were made to flush the mains during the middle of the week so as to have clear water wash days and not interfere with people taking their regular Saturday night bath, notice of flushing being given by five blasts on Williams' Shoe Factory whistle one hour previous.

While we have plenty of water for domestic purposes I regret to say that in the dryest times last summer I was obliged to notify several people to desist from wasting water on their lawns, some having their hose continually running twenty-four hours each day of the week.

During the dryest weather it would be a severe tax on our water supply should we have a large fire to cope with, as the 18-inch pipe that supplies the water wheel which turns the rotary pump exhausts a large amount of water in a short time. Therefore I recommend

Water Works.

we connect with Natick mains for increased pressure, which for fire purposes only would be a great blessing to this community. As it is now, somebody must go a distance of about two miles from village to gate house to start the pump, which if fire got a good headway would be a very serious matter to our village.

A very important work was performed at considerable expense in locating service boxes which have been charted in a book belonging to the town.

We have this fall extended a 4-inch main from C. H. May's to Henry Bemis's, 1,212 feet, and two hundred feet from Bemis's to Mrs. Underwood's a 2-inch galvanized pipe with hydrant, which gives to that neighborhood fire protection and much better domestic service.

About the 1st of October work was begun on the repairing of reservoir and continued until the 23rd of November, and the work performed I believe will give good results. If what has been started be carried out, I venture to say that we would not have any trouble with the water for a good many years and without any further appropriation. I would recommend that once a year at least the shores about the pond be raked and the refuse burned to keep out polluting substances as far as possible, and the cost would be small.

There is one matter that should not be overlooked, the kindness of Mr. Francis Shaw, who has given us important privileges in getting gravel and cutting trees and all other matters that go to improvement of the water works.

The maintenance account is as follows :
1907.

April	4.	To H. G. Dudley, labor in March	.	.	\$18 00
May	7.	W. C. Neal, 9½ days labor with team	.	.	23 32

FRED P. DRAPER,
Collector.

WAYLAND, March 2, 1908.

To the Taxpayers :

At this time it seems advisable to set before the taxpayers a few facts concerning this department of the town's business.

During the so-called "hard times," which we are now passing through, the percentage of collections has not been as large as

Collectors' Report.

usual; in fact, the town has been hard pushed to meet its bills from month to month. To those who have responded to requests for a settlement of their taxes I wish to express my gratitude.

In view of the condition of the town treasury it will not be wise to longer delay the payment (in part at least) of taxes due, as such a state of affairs will bring about forced payments, and must end in causing the loss of property or the unnecessary expense of advertising for the sale of the same.

At times requests for adjustments and abatements of taxes and also protests have been sent to me. Such requests should be sent to the Board of Assessors, as the Collector is sworn to collect all taxes as they are assessed by the above board.

To date I have failed to receive from the Board of Assessors a complete list of additional assessments and abatements on taxes for 1906 and 1907, although some of the assessments were made in March of last year. In order to balance my accounts with those of the Treasurer I have been compelled to use the list which he received only during the last few days of February of this year. Naturally, I was annoyed to find that I had refused money from some of those assessed on the above list because they were not upon my list, and I had also sent notices "to pay up" to some of those whose taxes had been abated.

The above facts have been cited in order that the taxpayers may fix the responsibility where they believe it is due.

Below is a report of the tax collections for 1906 and 1907.

1906.

March 1, 1907.

Uncollected . . .	\$6,426 86	
Additional assessments	26 00	
Abated . . .		\$3 41

• Respectfully submitted,

HARRY E. RICH,

Collector for 1906 and 1907.

REPORT OF THE LOCAL SUPERINTENDENT OF THE GYPSY AND BROWN TAIL MOTH WORK.

In submitting my report on the Gypsy and Brown Tail Moth work for the year 1907, notwithstanding that the town is generally infested, there are no places as bad as last year. In some places that were quite bad we have found only a few nests and in many places none at all. There are four wood lots of small area that were bad last year but have been burlaped the last season and we think the number of nests has been greatly reduced.

We find a very few of the Brown Tail Moth nests compared with last year.

WAYLAND, February 29, 1908.

Schedule of bills of expense incurred in suppressing the Gypsy and Brown Tail Moths under the Provisions of Chapter 381, Acts of 1905.

† \$480 transferred to Interest Account.

* \$3,200 transferred to Interest Account.

* \$1,067.89 transferred to Overdrawn Accounts of last year

Town of Wayland.

The appropriation of \$800 to reimburse Joseph F. Minon, agent, not having been assessed, does not appear in this report.

During the latter months of the year just closed, your treasurer was not able to make monthly payments as promptly as in years past, on account of lack of cash on hand, caused principally by the general financial depression, and unusual drafts upon the Contingent Fund. This Fund usually shows a balance at end of the year — this year it is overdrawn \$3,145.83. All notes and interest were paid when due, however, and no additional interest charges or loans incurred.

Principally through the efforts of the Tax Collectors and Water Commissioners the income at end of the year was sufficient for your treasurer to make all payments and close the books with a cash balance.

FRANK E. YEAGER,
Treasurer.

February 29, 1908.

Finance Committee.

FINANCE COMMITTEE.

The Finance Committee respectfully submits the following and recommends that the same be appropriated and adopted, viz. : —

Incidental fund	\$2,000 00
Support of poor	2,000 00
Abatement of taxes	300 00
School salaries and fuel	9,000 00
School supplies	750 00
Transportation	1,800 00
Repairs on school buildings	100 00
Superintendent of schools	312 50
School incidentals	150 00
Medical inspection	50 00
Salaries	1,300 00
Electric lights	1,425 00
Fire department	700 00
Repairs on engine house	0 00
Hydrants	384 00
Highways	2,000 00
Collector of taxes	350 00
Library	800 00
Lake View cemetery	100 00
North and Center cemeteries	100 00
Highway loan	400 00
Memorial Day	100 00
Sinking fund	1,408 80
Repairs on library building	100 00
Branch library at Cochituate	500 00
Overdrafts	4,654 94

Town of Wayland.

Repairs on bridges and railings on highways . . .	300 00
Painting and repairs on Town Farm buildings . . .	250 00
Manual training in schools	300 00
	\$31,634 24

We recommend that the sum of six hundred and five dollars (\$605.00) be transferred from water rates to pay interest on water bonds.

That the Selectmen be authorized to draw from the Contingent Fund such sums of money as may be necessary, not exceeding five hundred dollars (\$500.00) for assisting needy soldiers and their families.

That the Selectmen be authorized to draw from the Contingent Fund a sum not exceeding three hundred and fifty dollars (\$350.00) for the use of the Board of Health.

That the sum of three thousand two hundred dollars (\$3,200.00) be transferred from Contingent Fund to pay interest on town debt.

That the money for removing snow be drawn from the Contingent Fund.

That the sum of seven hundred and sixty-five dollars and eight cents (\$765.08) be drawn from the Contingent Fund for Gypsy Moth Commission.

PAUL T. DRAPER, *Chairman.*

L. K. LOVELL.

C. W. DEAN.

C. F. WHITTIER.

FRANK S. JONES, *Clerk.*

Auditor's Report.

AUDITOR'S REPORT.

WAYLAND, March 12, 1908.

The accounts of the financial officers have been examined and found correct.

The auditor renews his recommendation of last year, that the date for ending the municipal year be changed.

FREDERICK H. FOWLER,
Auditor.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of the Town of Wayland: —

In accordance with the usual custom we beg leave to submit this report as a report of progress of the work in our schools for the past year. With the advanced cost of all kinds of materials, and a steady increase in the salaries which have to be paid to teachers, it is evident that the expense of maintaining the schools must naturally increase. The appropriations made by the voters of the town have always been liberal. This fact in itself speaks in positive terms of their desire that the public schools shall be maintained on liberal and progressive lines.

After careful consideration of the matter, and with a desire to arrive at a fair and just decision, your committee decided to increase the salaries of the teachers, and has raised the maximum salary for the grade teachers to five hundred dollars, and that for the assistant teachers in the High School to six hundred dollars. By these means the committee hopes to be able to retain the teachers for a longer time than it has been able to do in the past few years.

In connection with this matter we desire to express our disapproval of the practice of superintendents of

Town of Wayland.

schools in visiting neighboring towns and hiring away teachers who are apparently satisfied with their positions. Why should superintendents be allowed free access to our schools to induce teachers to leave? No teacher can accomplish good work in a single term, and the hiring of a new teacher weakens the whole school system. The present practice is, to say the least, detrimental to the best interests of all concerned, and surely school administration should be on as high a plane as that of other affairs.

No school methods are above criticism, but we believe it is the duty of parents, as well as that of others, to visit the schools and judge the conditions for themselves, rather than to listen to the stories of children and others, and then draw their conclusions.

Through the influence of some of our citizens we have been able to introduce manual training in the schools, and we desire to express our appreciation of the same. We believe it will tend in many cases to keep the boys and girls in school a longer time, and that they will thereby derive greater benefits in other ways also. If the course in manual training is to be continued it will be necessary to appropriate money to carry it on. It will be necessary to increase the amount of appropriation for the transportation of scholars, owing to the advanced rate of fare. With these exceptions an amount equal to to that appropriated last year for the schools will be sufficient for the needs of the coming year.

The condition of the school building in Wayland Centre is all that could be desired, owing to the generosity of one of our public-spirited citizens, but the building at

School Committee.

Cochituate Village is a problem which must be considered at no distant day.

We desire to express to the superintendent and the teachers our hearty appreciation of their cordial cooperation in our effort to advance the standard of our schools. The superintendent's report, which is hereto appended, covers the detail work of the schools.

ISAAC DAMON.

HARRY E. CARSON.

EDWARD M. BENNETT

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Committee of the Town of Wayland:

I herewith submit my second annual report as superintendent of schools. It is the tenth in the annual series of school reports for this town since the formation of the union district with Sudbury and Dover.

A year ago I presented an outline of the plan and policy, in part, of the present school administration. It may be said that this plan and policy has been faithfully adhered to, except that it has been broadened and made more inclusive of the newer phases and ideals of modern education. Whatever proves ineffective or inadequate is discarded, but whatever plan is adopted that promises to be of value is persistently followed and not allowed to go by default or fail for want of due attention and support.

Modern education is demanding more than ever before of the teacher and of those responsible for the administration of the public schools. The standard is high. The product of the school must be an individual who will meet the demands of the immediate future as an efficient member of society. It is our duty as educators to study the needs of our community and to determine the means and the methods whereby the schools may meet the demand for modern social efficiency, and successfully discharge the obligations that devolve upon them.

Superintendent of Schools.

TEACHERS.

Credit is due the teachers for their loyalty and for their excellent work. They are unceasing in their endeavor to develop the best in every pupil and to discharge to the best of their ability their duty both to the school and to the community. The community on its part has a distinct duty toward the teacher. An adequate salary, a just appreciation freely expressed, and a cordial social recognition are due to every teacher, and they are absolutely necessary in order to secure and to retain the services of superior teachers.

Changes in teachers are to be deprecated, but they are inevitable. From March 1, 1907, to February 29, 1908, there have been nine resignations. Of these, one resigned to be married, three resigned before re-election, one resigned for the good of the school, and four resigned to accept better positions elsewhere. These vacancies have been filled only after long and careful consideration, and we believe that the quality and ability of the teaching force has, on the whole, been improved, and is of high degree.

It is becoming more and more difficult to secure and retain competent teachers. There is a shortage of teachers all along the line. The larger towns and cities suffer no less than those of smaller population. Wayland has some advantages to attract teachers, but not for permanent tenure. It is an excellent stepping-stone to higher positions. In some respects it is well. It is better to have good teachers, while we can have them, than to have teachers who would remain permanently because no one else wants them. These are the teachers that we do not want, and do not keep, if we happen to get them. The policy of the town should be to secure as good teachers as possible and keep them as long as possible. The people should recognize the fact that changes are inevitable, accept them philosophically, and co-operate with the school officials

Town of Wayland.

to minimize the evil effects thereof. The committee are not to be blamed when a good teacher leaves Wayland. They can't help it. They can offer salaries to the limit of the town appropriation, or even beyond, but it is no inducement to remain, when a teacher is offered a position in cities like Brockton or Manchester.

In regard to salary and appropriations: A year ago the town generously increased the appropriation and enabled the committee to advance salaries somewhat and to establish a salary schedule. This has had some effect in retaining our good teachers, and it has enabled the committee to approach in salary a little nearer the worth of our best teachers. But the chief effect has been in the decided improvement in the quality of candidates who present themselves for our consideration when vacancies occur. At the present moment, in looking for a teacher to fill a vacancy in the high school, there is absolutely no desirable candidate in sight who would consider our maximum salary prior to this year. It should be clearly understood that increased salaries in a town like Wayland tend to increase the length of a teacher's term of service, but do not insure a permanent tenure; that the higher the maximum salary of any position, the better the class of candidates from which a selection may be made, and consequently the better the teacher that may be secured.

A word in regard to the maximum salary: How much can Wayland afford to pay the teacher that the town cannot afford to lose? My own opinion is that a teacher's worth to the town in his or her position should determine the maximum salary in any particular case. Length of service, salary schedule, or custom, cannot determine the financial worth of a teacher to the community. Results alone determine, and this is the test to apply to each individual teacher.

The general consensus of opinion now holds that a

Superintendent of Schools.

teacher should give or receive four weeks' notice in case of a desired change, and that after a teacher has accepted a position a full year of service is expected, provided conditions are satisfactory to all parties concerned, before a resignation will be accepted. The interests of the school should be considered. No teacher should desert a school in the middle of the year, unless after careful consideration the advantages manifestly outweigh all disadvantages. I am very glad to be able to state that there is an increasing tendency on the part of conscientious teachers to resist more lucrative offers elsewhere and remain loyal to the interests of the school throughout the entire year. Such loyalty should be appreciated. I believe that it pays in the end.

COURSE OF STUDY..

The revision of the course of study is progressing. Reading and geography are receiving especial attention. The aim is to so arrange and adjust the environment of the pupil in the school room that he shall acquire such facts of knowledge and such experiences as shall best fit him to become a useful member of society. The courses in reading and geography have been greatly strengthened by the addition of valuable supplementary readers and text-books.

THE PUBLIC LIBRARY.

It is my desire to further the use of the public library by the schools and by the pupils as individuals. The habit of reading and study is best formed in youth and, if the habit of using the public library intelligently is inculcated at the same time, the chances of a life of intellectual enjoyment and profit are greatly increased.

It is probable that a further list of books suitable for children's reading will be arranged by grades by the teachers with the co-operation of the librarian, and placed in

Town of Wayland.

the hands of the pupils some time during the spring term

A plan is on trial, also, of preserving a card catalogue of references to library material suitable for use in connection with geography, history, and other subjects in the course of study.

The trustees of the public library have considered the needs of the schools in the purchase of books and the work of the high school has been especially benefited thereby.

The reading room which has been opened at Cochituate is a valuable aid to the schools, and it will materially assist in training boys and girls for intelligent and useful citizenship. Its continuance is very much to be desired.

ATTENDANCE.

Considerable effort has been put forth to improve the attendance and punctuality, but little has been gained thus far. The average per cent of attendance for 1906-7 was 93.2. For the present year at the end of the fifth school month, the average was 92.9. In a town like Wayland, with its facilities for transportation, the average ought to be as high as 95. It is possible that the average would be a little higher, if there were no school on stormy days, but the difference would not be great. The good attendance on stormy days is especially to be commended. The cooperation of parents is very much desired in maintaining a good record of attendance and punctuality.

"NO SCHOOL" SIGNAL.

To avoid misunderstanding it may be well to state that there is no signal sounded for "no school" in this town. There are times when it would be desirable and advisable on very stormy days to have a signal for no school, but it is very difficult to determine beforehand just when it is advisable. The attendance at present is so good on stormy days that it seems to me inadvisable to waste

the town's money by dismissing school and losing a day's work.

Again, the effect of a "no school" signal is detrimental. To quote Superintendent Peaslee of Lynn,—“It creates unrest, belittles the necessity of every-day effort, cheapens the importance of the school, weakens character and develops and fosters the idea that nothing disagreeable is to be experienced or endured.”

It should be borne in mind that parents are at liberty to use their own judgment in the matter of sending their children to school on stormy days. The compulsory school law does not require pupils to injure their health by school attendance, nor does it require school officials to determine when a pupil's health may be endangered.

A high rank in attendance is very much to be desired, but it does not seem to justify no school on days when there is a liability of poor attendance.

PARENTS' DAY.

Some time during the month of May a special day will be set apart for the reception of parents and friends of the schools. The special features of the day will be the regular class work, the exhibit of written work, drawing, etc., and a general sociability and good time. Parents are always welcome, and are urged to visit the schools at all times, but since they do not all avail themselves of a general invitation, this special day and invitation is planned.

SAVINGS PLAN.

Your attention is called to the desirability of introducing a penny saving system into the public schools whereby the children may be educated in the proper method of saving. They spend many pennies for cheap and unwholesome candies and confections which are injurious to their health, and which, I believe, seriously in-

Town of Wayland.

terfere with their growth and development. If the pennies so spent, together with others earned, could be saved and deposited in the bank for future and better use, they would be of much greater value to the owner, and the habits of thrift and industry thereby inculcated would be of inestimable worth to the individual child. I recommend the introduction of such a system at the beginning of the next school year in September.

ADMISSION.

Attention is called to three rules regulating the admission of children to the public schools.

Rule 8. Pupils under five years of age will not be admitted, except by permission of the school committee.

Experience shows that children under five years of age are immature, and unable to do satisfactorily the work of the first grade, and that they retard the progress of the class. The present tendency is to raise the age of admission from five to six years.

Rule 9. Children will be admitted to the first grade only at the beginning of the fall term, except by special permission of the school committee. ("The beginning of the fall term" will include the first two weeks.)

Rule 10. Pupils who enter a school in town for the first time must present a vaccination certificate properly filled out and certified, or a certificate stating that the pupil is an unfit subject for vaccination, before being admitted.

A careful registration list of all pupils has been made this year, and it has been found that during a few years sufficient attention has not been given to the matter of vaccination, so that in certain grades there are several pupils who have not been vaccinated. Special attention is here called to these necessary rules, and parents are requested

Superintendent of Schools.

to comply with them before sending their children next September.

MEDICAL INSPECTION.

The sight and hearing of the pupils has been tested according to law, and the directions of the State Board of Education, with the following results:

Number of pupils tested, 375.

Defective in sight, 65, or 17 plus per cent.

Defective in hearing, 17, or 4 1-2 per cent.

The tests have not shown quite so large a percentage of defective sight and hearing as last year, partly because experience enables a more accurate test, and partly because some of the pupils have had defective eyesight remedied by treatment and the use of glasses.

The large percentage of defective eyesight is in the Cochituate building, the number there being 26 1-2 per cent of the whole, while in the Wayland building the per cent is only four.

The work of the school physician is being very thoroughly done, and should be productive of good results. The appropriation for medical inspection is entirely inadequate as a remuneration for the work that has been done, and the town is to be congratulated upon having a school physician whose interest in the cause exceeds the limits of the financial compensation.

I am of the opinion that the appropriation should be increased to one hundred dollars, at least, and I also believe that a school physician for each village is a more desirable arrangement.

The report of the school physician appears elsewhere, and deserves careful reading.

MARKING SYSTEM.

It may be of interest to parents to have our plan of marking scholarship and deportment explained. No method

that can be adopted is entirely satisfactory. The exact rank or ability of a pupil can never be accurately expressed by symbols, yet we have no other means. Parents desire to know, and should know as nearly as possible, the quality of the work done by their children. The report card with a marking system that is somewhat flexible and easily understood, is a necessity. If it is supplemented by a personal visit to the school by the parent and consultation with the teacher, the result is fairly satisfactory.

The following directions for marking are given to teachers:

1. Mark on a scale of 100.
2. Teachers are to use their own method of keeping the daily record of the pupils' work.
3. Examinations count one-third, daily average, two-thirds, i.e., add or subtract from the daily average one-third of the difference between the examination mark and the daily average.

4. Transfer the record to the report card according to the following scale:

High School—H-Honor, 95-100; G-Good, 85-95; P-Passed, 70-85; F-Failed, below 70.

Grades—H-Honor, 95-100; C-Credit, 85-95; G-Good, 75-85; P-Passed, 70-75; F-Failed, below 70.

The use of letters is preferred. The use of plus or minus or any variation from the above scale is inadvisable.

5. Report the standing of grades V-IX and high school pupils.

6. The report cards should be placed in envelopes addressed to the parent (or guardian) with the name of the pupil in the lower left-hand corner.

7. Send the report cards promptly at the close of the school month and insist that they be returned promptly.

Note: If parents refuse to sign the report card, notify them that the signature does not imply approval or disap-

Superintendent of Schools.

proval, but is simply an evidence that they have seen the report, and withhold further reports until the card is signed.

8. Use red ink for unsatisfactory marks upon the report card.

9. Do not mark too high, especially at the beginning of the year.

10. Keep a permanent record of the work accomplished and the rank attained by all pupils in the high school. This is important.

Reports for grades I-IV are optional with the teacher.

In addition to the report cards, special notices are sent to parents when the standing of a pupil is such as to endanger his promotion prospects. These are to make sure that parents understand the matter clearly, and to secure their co-operation in bringing the pupil up to the required standard.

UNION MEETINGS.

Union meetings of the teachers of the district have been held as follows:

At Sudbury, April 12, 1907; Dea. F. F. Walker, chairman.

Addresses: "Individualism in Education, or How to Meet the Needs of Individual Pupils," by Dr. John T. Prince, Agent of the State Board of Education.

"The Value of a Knowledge of the Natural Sciences, especially of Geology," by Prof. George H. Barton, of the Teachers' School of Science, Boston.

At Dover, October 11, 1907; Mr. R. H. Bond, Chairman.

Addresses: "Penmanship," by Mr. A. W. Clark of the Penmanship Department, Ginn and Company.

"How the Homes Can Co-operate with the Schools," by Prof. Marshall L. Perrin, Superintendent of Schools, Wellesley, Mass.

Town of Wayland.

At Wayland, January 31, 1908; Mr. Isaac Damon, Chairman.

Addresses: "School and Home Gardening and Industrial Work," by Mr. O. A. Morton, Superintendent of Schools, Marlboro, Mass.

"The Weakest Point in Modern Education," by Mr. B. C. Gregory, Superintendent of Schools, Chelsea, Mass.

The usual conferences have been held, the wants of the inner man abundantly provided for, sociability has not been wanting, and the meetings have been profitable from all points of view. If there is anything left to be desired, it is an increased interest in and attendance upon these meetings by the parents and other citizens of the town.

SCHOOLROOM DECORATION.

Schoolroom decoration and improvement of the school buildings and grounds is educational in value, and very much to be desired. At the Wayland Center School the principal and teachers have held the Turner exhibit of photographs to raise funds for the purchase of pictures for the building. The following pictures have been purchased:

Sir Galahad, Watts.

Dance of the Nymphs, Corot.

The Shepherdess, Lerolle.

Pilgrims Going to Church, Broughton.

The purpose of the high school graduating class of 1908 to make the school a gift of a large cast of "Aurora" is very commendable. It is a highly desirable precedent to establish, and I trust that all succeeding classes will establish it as a custom. Even graduating grammar school classes in many towns leave behind them a token of their regard for the school and its associations.

THE COCHITUATE SCHOOL BUILDING.

In regard to this building, I am inclined to incorporate a paragraph from my report of last year, and make one or two additional observations. I quote:

"I find by reference to earlier reports, dating as far back as 1901, that the building had the following deficiencies:—

1. Poor ventilation.
2. Lack of modern conveniences.
3. Poor heating facilities.
4. Lack of hall space.
5. Poor lighting.
6. Long stairways.
7. Dampness.
8. Dilapidated appearance.
9. Poor location.

These objections would still appear to hold good. The building is rapidly deteriorating, and will continue to do so as long as the committee pursue their present policy, a wise one, of expending only the minimum amount for repairs. Expert opinion testifies that money cannot be economically expended upon the present building. The only thing to be said is that it would be wiser and safer to provide a new building before danger is incurred by fire or disease in the old one."

The defective eyesight in the building, compared with that in the Center building, is in the ratio of about 7 to 1. A study of the lighting surfaces of the building shows that the ratio of the lighting surface to the floor surface is about 1 to 10 (about 1 to 13 effective) on the first and second floors, while on the third floor the ratio is 1 to 13 (1 to 16 effective). The standard required by the state is 1 to 4, or, at the least, 1 to 6.

The seating equipment is entirely inadequate. Probably not more than 50 per cent of the pupils have seats

and desks that are suited to their needs. The desks are ill fitting, and cannot be adjusted, and the result is physical discomfort and a tendency toward permanent deformity.

Taking all these conditions into consideration, it seems to me that a permanent committee should be appointed by the town to agitate the matter and devise ways and means until some recommendation is made that the town will accept and adopt. The present building is inadequate and dangerous, and there should be absolutely no cessation of effort until the Cochituate pupils are housed in a modern and hygienic building.

MANUAL TRAINING.

Through the interest and effort of several public-spirited citizens, notably Mrs. Jessica L. C. Henderson, who originated the enterprise, together with several who have given valuable assistance, Mrs. Hayward, Mrs. Jones, Mrs. Bullard, Mr. Francis Shaw, Mr. Wallace Draper, Mr. Edward M. Bennett, and others, we have been able to introduce sloyd into grades eight and nine. The classes include the boys and girls of these grades at the Center school, and the boys from these grades at Cochituate. There is great interest in the work, and it is very desirable that it be extended to include at least the boys of the seventh, eighth, and ninth grades, and such girls as choose to elect it. The plan at present is to make the work required of the boys and elective by the girls.

To maintain this work and extend it as desired will require provision in the next annual appropriation for schools to the amount of about five hundred dollars. Public spirit and co-operation have thus far provided means for equipment and instruction, but it will be impossible to continue the work under the present plan of supplying funds. It is too great a burden upon public generosity. The work has been successfully introduced, and it is both

popular and profitable. It is no longer an experiment.

Sewing has been introduced into the seventh, eighth, and ninth grades for the girls at Cochituate. The instructor is a practical teacher from the Framingham Normal School, and the work is at practically no expense, except for car fares. It is my desire to have sewing at both Wayland and Cochituate for the girls in all the grades from the fifth to the ninth, and possibly in the primary grades, either by practice teachers or by the regular teachers under supervisory direction.

THE HIGH SCHOOL.

The high school in a small town is always a difficult problem. The small number of pupils, the small number of teachers, with the consequent heavy burden of many classes, the relatively high cost per pupil, the course of study,—all present problems of difficulty that require thought and skill in solution. The frequent changes of teachers, especially of principals, is destructive of the unity and progressiveness of the school. Other local causes sometimes affect a school adversely, and make the problems still more complex.

The Wayland high school has its share of adverse conditions, no doubt, but it is, nevertheless, a progressive school, and in my opinion, it is worthy the confidence and support of the citizens. Several important measures have been taken to strengthen the work of the school during the past two years. The course of study has been materially improved and broadened to meet the needs of the pupils in their preparation for further study or for whatever occupation they intend to pursue. For college and normal school preparation and for general culture, the high school furnishes ample means, and the Wayland High School ranks well with the schools of its class.

It is a fact, however, that it does not meet the prac-

Town of Wayland.

tical needs of a large number of pupils who do not intend to pursue advanced courses in higher institutions. This is a present and very important problem that requires solution.

The commercial course has been extended and improved and a teacher employed who is especially equipped for teaching the commercial branches, and who devotes at least three-fourths of her time to this department. Our aim is to provide each pupil with a practical business education suited to the needs of the ordinary business man or woman, and to provide those who wish to pursue special commercial work with as thorough a business equipment as the time and means will allow.

The daily session has been lengthened from four and one-half to five and one-half hours. This gives a recitation of forty-five minutes, and allows each teacher one or two periods a day for attention to individual pupils.

The standard of promotion and of graduation has been raised, and pupils are strictly required to meet the obligations imposed by a high grade of excellence.

It is our endeavor to see that every pupil clearly understands his rank as a student and his prospects for promotion and graduation. The teachers are constant in their endeavor to discover the best there is in each individual pupil and to encourage him to pursue those studies that will develop his talent in the most effective way.

Much has been done during the present year by the principal and teachers to develop interests that symmetrize the high-school life and promote a wholesome school spirit and loyalty. This last is sadly needed. The sense of obligation to one's school and teachers for benefits received, for happy associations and loyal friendships, the spirit of "alma mater" that so characterizes the old academy and seminary, is wanting in the modern high school. Yet the school needs it. It needs the loyal support of

Superintendent of Schools.

every student and every graduate. Every reflection upon the school should meet a staunch and loyal defender. It has an honored past and a hopeful future, but it needs the loyalty and support of every graduate, of every pupil, of every parent, and every citizen.

The school has been visited recently by an agent of the State Board of Education, and has been recommended by him for the certificate privilege of sending graduates to normal schools without examination. I may state that the recommendation was a strong one, and that in his opinion, Wayland has the best high school it has ever had.

There is no doubt but that the college certificate privilege (unfortunately and needlessly lost) will be given the school as soon as graduates enter some of the colleges included in the New England College Entrance Certificate Board and make a good record there. Too much emphasis cannot be put upon the fact that the reputation and rank of the school depends upon the record and standing of its graduates after they leave school. All recent graduates who have entered other schools or colleges have entered well, and are doing good work, but they are not in colleges that are included in the above-mentioned Board.

These facts and suggestions are respectfully submitted to those who are interested in the school, with the added suggestion that any criticisms be brought directly to the committee or to the superintendent, where they will be helpful (outside they are harmful), and that every citizen be a loyal supporter of the school.

Since writing the above, I have been authorized to state that the certificate privilege has been granted the high school by the Worcester Polytechnic Institute on the application of the high school principal and after investigation.

Town of Wayland.

CONCLUSION.

In conclusion, I desire to express my appreciation of the pleasant relations that have existed between all who have participated in the work and interest in the public schools. These expressions are customary and somewhat formal, but none the less genuine and sincere.

The reports of the principals, supervisors, and truant officers, follow, together with the appendix which contains the usual tables and statistics.

Respectfully submitted,

S. C. HUTCHINSON.

REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL.

To the Superintendent of Schools:

Submitting to you at mid-year my first report of the progress of the Wayland High School, I am impressed with the fact that aims rather than results must be offered at this time.

In the instruction and administration of the school the aim of the faculty has been two-fold. First: to make the school life of interest to the student; Second: to so direct the instruction and the administration as to be productive of character and ability in the students.

Of a peculiar value for character building and creative of a healthy school spirit are certain values which this year have been introduced into the school. Public speaking—debating—musical clubs—organized athletics,—these have a peculiar value for creating a healthy atmosphere in the school. The old-time academy had its forms of public address, but in the evolution of the modern high school this exercise has often been lost. The power to express one's self in public is one of the deficiencies of the student of today. Confidence in expression, vocal training, and other educative values may be found in this exercise. To encourage the continuance of the musical interests of earlier years and to encourage others to add to their attainments a musical interest, our musical clubs have been organized. Athletic teams under proper supervision have come to be recognized as a necessary part of the outside

Town of Wayland.

school life. A scholarship requirement for all members of teams is an assurance that none shall seek the High School for athletics only. Inter-class contests for boys and for the girls in their own field are valuable in stimulating a healthy class and school spirit. Competitive games with other schools bring out loyalty to the school.

These outside school interests mean extra work for the teachers, but our faculty feel fully repaid for their efforts. A closer relation between teacher and student is at all times desired, and in no other way can such a relation be better brought out than by an interest in a student's out-of-school life. Where the teacher is present many of the students try for a better attitude in their endeavors, and here again there is an opportunity to assist character building. These thoughts may indicate our purpose to make their interests our interests.

On the side of formal instruction there is again a definite aim. It is desired that the pupils learn a few things well rather than acquaint themselves with many things in a partial, incomplete way. Quality rather than quantity is emphasized. With this aim in view there arise several factors which are a part of the method for qualitative instruction. First: Failure is eliminated. When a student fails in a lesson he is not permitted to offer an advanced recitation until he has satisfactorily made good the lesson he failed in. In this manner a student does not leave unaccomplished any lesson, hoping the next will be easier and compromise for the past. Many scholars fail at the close of the year because they did not learn their lesson according to the logical progression, but rather by selecting here, there, and another place, having no idea of the dependence of lesson number two upon lesson number one. To eliminate the chance to offer failures teaches the boy to always stay by his task until accomplished, be it a formal school study or an out-of-school piece of work.

Principal of High School.

In the above aim another factor may be obtained. To require a student to do things for himself develops initiative. There is first a clear, concrete exposition of the lesson at hand, and the student must be attentive, for he knows that when he has asked his last question he then is responsible for his lesson, and that no second explanation will be given. Having been shown once how to perform the task at hand the student is then required by written or oral expression to show that he has grasped the problem and can put it into some form of expression or action. This method requires mental action and also requires that the student use his ability with confidence. In written work mistakes are made. As the purpose of the exercise is at each time single fold, the student knows that he can transgress in only one way. He must then find his own mistake.

Other factors promotive of self-reliance are readily obtained when the teacher instructs and then requires the student by return expression to give forth what he has taken in. The whole plan indicates a purpose to train students in such a way as to make them active and not passive users of their own ability.

I have indicated the two-fold aim of our faculty. We feel that results are assured. A personal word at this time will not be misunderstood. I am exceedingly pleased with the efforts of my assistant teachers, with the hearty co-operation they are at all times giving. To the students who as a school have responded to my desires in a way that has made my advent in Wayland a happy one. To the parents who have from time to time dropped an encouraging word in behalf of the school and the teachers; your school support inspires us more than any other thing to greater activities.

If I am permitted to submit you another report at a more advanced period of my stay in Wayland, I have good reasons to feel that we shall be able to show evidence of results of our aims.

Respectfully submitted,
FRANK Y. HESS.

REPORT OF THE PRINCIPAL OF THE COCHITUATE GRAMMAR SCHOOL.

To the Superintendent of Schools:—

I herewith submit to you my second annual report of the Cochituate Grammar School.

The work for the spring term of 1907 was continued as planned, and was not interrupted by a change of teachers.

The school is to be congratulated that such faithful teachers have been obtained to fill the vacancies which occurred in Grades I and VII.

The kalsomining of the school rooms during the summer vacation has helped the light, and other repairs have rendered the building less dangerous to the health.

Many members of the graduating class of last June have continued their studies, either at the Wayland High School, or at the schools of nearby cities. I ask the co-operation of the parents in impressing upon the children the value of a high school training, and their assistance in increasing the percentage of grammar school graduates who enter the Wayland High School.

No general visiting day has been taken by the teachers of this building since last spring. At that time we visited the schools of Somerville to see the work in writing.

The union conventions held at Dover and Wayland have been attended, and also the Middlesex County convention held in Boston. The excellent programs at each of these conventions and the manual arts exhibit at Boston have assisted in making the days a source of profit and inspiration.

Principal of Cochituate Grammar School.

Sewing for the girls and manual training for the boys of the upper grades have been introduced this year. The results have been very gratifying, and I trust that this work will be continued and extended.

An effort is being made to raise the standard of the work done in all grades, and thus to better fit the boys and girls for the places they are soon to fill in the community. I trust the parents will join with the school officials in this effort and encourage the pupils in forming habits of punctuality and industry.

In behalf of the teachers I wish to extend a cordial invitation to the parents to visit the school.

In concluding this report, I desire to thank all who have contributed toward making the school a success.

Respectfully submitted,

MERITT JENKINS.

REPORT OF THE SUPERVISOR OF DRAWING.

To the Superintendent of Schools:—

In the school curriculum the subjects of history, science, geography, with music, unite together in developing the intellect of the child, and give no opportunity for free motor expression. The drawing with the industrial work, which is and should be a part of the course, supplies this need and gives a means of expression which will make clear and also attractive the other subjects.

Nothing can be made by hand without some thought of the object's use, its size, proportions, color, and decoration, if needed. That these ideas may be made more clear to children specific things, in which they are instructed or interested are selected for them to create.

In this execution are applied the principles that underlie all good instruction. By this means honest work is developed and at the same time an appreciation of art and handicraft.

The material used in the construction work in the Wayland School has been that which can be easily handled by children, paper and cardboard. In some grades with these have been used the book binders' linen in the forming of covers for written work. Some very creditable work has been done in basketry by the boys of the seventh grade in Cochituate. This work is carried on while the girls are receiving their instruction in sewing.

Thus far simple reed mats and baskets have been made that the boys may understand the principles of weaving and

Supervisor of Drawing.

the limitations of the material. It is interesting work for children, can be easily learned, and gives an opportunity for original expression.

The general work in drawing, known as the pictorial phase is similar to that of the previous year, it being the aim to adapt the work to the needs of the children in the different grades, keeping in mind that a child is a constantly changing individual.

With the lengthening of the session in the High School longer periods are given for the work in drawing, a very satisfactory arrangement. I would suggest that to the course in drawing be added a branch in metal work, this giving a direct opportunity for applying principles of design, of producing a useful and attractive result and learning concerning the work of craftsmen in metal.

I wish to thank the superintendent and committee for their encouragement during the year and to extend to the teachers my appreciation of their sincere efforts.

Respectfully submitted,

MARY J. STICKNEY.

REPORT OF THE SUPERVISOR OF MUSIC.

The following is submitted as my annual report of the work in music:

Music, as is shown by the report of the State Board of Education, is no longer considered a subject which is purely ornamental, but rather one which holds an important place in the curriculum of the schools of the State.

That it holds an important place in our schools is shown by work that is done in all our schools, including the high school. Music plays are used in our first and second grades. Among them may be mentioned: All for Baby, The Pigs, The Mice, The Squirrel, Santa Claus, etc. These have to do with singing and listening to music, with rhythmical movements, motion songs and finger plays.

Much is made of the rote songs in the first three years of the child's school life. In the intermediate and grammar grades the plan of work is much the same as last year. The pupils have gained confidence in themselves under the individual system, thus bringing the class work to a higher standard. The pupils of the high school are now able to take up new choruses with greater ease than formerly, and they also get a great deal of enjoyment out of them.

Owing to the small number of pupils in the high school all are expected to take the subject, whether they have a natural bent for it or not.

In large high schools the supervisor selects the best talent only for his chorus work, and if any pupil shows indifference to the subject he is immediately dropped from the

Supervisor of Music.

class. In our small high school, however, we are obliged to take all the pupils into the chorus work whether they have talent or not. We have been able, however, to take choruses that are sung in city high schools, and when finished, as the results of last June showed, have been creditably done.

Respectfully submitted,

AGNES E. BOLAND.

REPORT OF THE INSTRUCTOR OF MANUAL TRAINING.

The pupils in this department have shown from the first a lively appreciation of the privilege of this instruction, by close attention to duty and apparent desire to execute good work.

For pupils beginning the work only last September, the results are most gratifying. Although it is what the pupil gets from making the model and not the model itself which is of prime importance, yet the concrete result of his labor is indicative of the amount of interest and pride he feels in performing a task to the best of his ability, and love of good work and a desire to give only of one's best are high among those things which manual training seeks to implant in the growing boy or girl.

Carefulness, accuracy and neatness, with ability to plan are necessary to the accomplishment of a high standard of work, and while no revolution in the character of a child may be effected in the limited time given to this work, it is impossible for him to produce a finished model by the exercise of his highest efforts and receive no lasting benefit therefrom.

A gain is apparent in many of the pupils and the instructor in view of their present enthusiastic attitude looks for yet greater things.

Respectfully submitted,

PHILIP E. PERRY.

REPORT OF THE SCHOOL PHYSICIAN.

To the Superintendent of Schools:—

I herewith submit the following report as School Physician. A careful examination of the pupils in the public schools is being made. Up to the present writing (Feb. 28, 1908) 226 pupils have been examined. This includes the entire High School, 59 pupils, the balance being from the grades in Cochrane and Wayland. When conditions are found on examination which require reporting, the information is sent to parents or guardians on the blanks provided by the State. The result up to date is shown in the following tables:

TABLE I.

	Examined.	Reported.	Unreported.
High School	59	21	38
Cochrane			
grades	112	93	19
Wayland			
grades	55	45	10
Totals	226	159	67

TABLE II.

Conditions Reported.

Decayed teeth	127
Pediculosis capitis	
(head lice "nits")	28
Eye strain	23

Town of Wayland.

Adenoids	17
Anaemia	14
Enlarged tonsils	9
Ear trouble	6
Lateral spinal curvature	4
Heart, etc	4
Kidney, etc.	3
Constipation	3
Low shoulder	2
Round shoulders	1
Ring worm	1
Swelling of feet	1
Internal squint of eye	1
Far sight	1
Cough	1

Total	246
-------	-----

The routine eye and ear tests (sight and hearing) are made by the teachers as provided by law.

The total of conditions reported exceeds that of pupils reported because several conditions needing report are often found in the person of one pupil.

Attention is drawn to the cases of *Pediculosis capitis*. The school physician hopes that parents and guardians will realize that this condition ("nits") is a very frequent one in public schools and other like places of assemblage. The most careful individuals run the risk of becoming affected with it in such cases. As has been said, "No person should be blamed for having lice,—only for keeping them." One pupil in a school is liable to infect many others; therefore, it is very important that the schools be freed from these cases. Parents and guardians are earnestly requested to co-operate, seeing to it that any child in their charge who is found to have the infection be immediately given adequate treatment and the condition be promptly removed.

School Physician.

Beside the routine examination of pupils the school agnosis as follows:

physician has been called upon to examine a few cases for di-

Dec., 1907, Ulcerated tooth.

Jan. 20, 1908, Pediculosis capitis.

Jan. 27, 1908, Mumps.

It may here be stated that the function of the school physician is simply that of an examiner. His duties in connection with the school do not include treatment of cases.

In conclusion attention is called to the urgent need of sanitary privies at Cochituate. The question of proper lighting of the school rooms there also demands immediate attention, as well as the well recognized need of adjustable school desks and chairs.

Respectfully submitted,

WILLIAM H. SAYWARD, Jr., M.D.

REPORT OF TRUANT OFFICERS.

To the Superintendent of Schools:—

Dear Sir:—I herewith submit the following report of absences and truancy for the year beginning March 1st, 1907, and ending February 29, 1908:

Number of absences reported	7
Number of cases investigated	7
Number of absences with legal excuse	1
Number of absences for miscellaneous reasons	1
Number absent to work (at home)	1
Number absent for lack of clothing	0
Number of truants	4
Number of visits to factories	0
Found working without certificates	0

Respectfully submitted,

J. F. BURKE.

To the Superintendent of Schools: —

RULES AND REGULATIONS.

ATTENDANCE.

1. Excuses for absence may be granted by the teachers for the following causes only:—The pupil's sickness or physical disability, death in the family or other extreme emergency, contagious disease or quarantine.

Note. Lack of clothing, helping at home, running errands, visiting, and the like, are not accounted sufficient cause for absence.

2. In case of extreme necessity, the superintendent may grant excuses for special cause.

3. Any pupil not in his seat at the stroke of the last bell, promptly at the hour for school to begin, shall be considered tardy.

Exception. Pupils who are late because of the late arrival of barges or electric cars shall not be considered tardy, unless they loiter or delay after arrival.

4. Excuses for tardiness may be granted at the discretion of the teacher.

5. Any pupil having been absent shall be required to bring a written excuse from parent, or guardian, stating the reason for the absence. In case the written excuse is not brought, the absence will stand unexcused.

6. All absences excused must be so recorded in the register.

7. When a pupil is apparently absent without sufficient cause, the teacher shall notify the truant officer promptly.

8. Pupils under five years of age will not be admitted.

Rules and Regulations.

9. Children will be admitted to the first grade only at the beginning of the fall term, except by special permission of the school committee. ("The beginning of the fall term" will include the first two weeks.)

10. Pupils who enter a school in town for the first time must present a vaccination certificate properly filled out and certified, or a certificate stating that the pupil is an unfit subject for vaccination, before being admitted.

11. Pupils who are perfect in attendance and punctuality for any school month may be dismissed one hour before the close of school on the afternoon of the last school day of the school month.

12. Any pupil outside of school age, less than seven or more than fourteen years of age, who is absent unexcused for more than five whole days or ten half days in any period of six months may be suspended until assurance is given of regular attendance.

SCHOOL SESSIONS.

- | | |
|--------------------------|---|
| 1. WAYLAND: High School— | 8.45 A. M. to 1.15 P. M.
(Ten minutes for recess.) |
| Grades— | 8.45 A. M. to 2.15 P. M.
(Fifty-five minutes for recesses, physical culture, and intermission.) |
| COCHITUATE: Grades— | 9.00 A. M. to 11.30 A. M.
1.00 P. M. to 3.30 P. M.
(Twenty-five minutes for recesses and physical culture.) |

2. The school hours as indicated must be strictly observed.

3. Pupils in the first grade may be dismissed at recess during the first and second school months, and fifteen minutes before the close of the session thereafter.

Town of Wayland.

4. The bell shall be rung five minutes before the beginning of the school session, and the pupils shall at once enter the schoolroom and take their seats ready for work. The last bell promptly on time shall be the signal for the school exercises to begin.

5. The door shall be opened at least fifteen minutes before the beginning of the school session.

6. Teachers may detain pupils after school or in extra session for the purpose of making up lost time or deficiency in lessons or application for a time not to exceed one-half hour in the grades and one hour in the high school, except in case of pupils who are carried by barge.

Note:—Pupils in the grades at Wayland may go home for luncheon at intermission on condition that they are not tardy for the afternoon session.

TRUANT OFFICER.

1. It shall be the duty of the truant officer to investigate fully each case of truancy, to take such action as the circumstances warrant and the law directs, and to report the results of his investigation to the teacher and to the superintendent.

2. He shall exert all possible influence with the parents and guardians to secure the regular attendance of their children.

3. He shall present an annual report of his doings to the school committee on the 1st day of March of each year, giving the number of cases investigated and the action taken thereon, together with such additional information as he may deem advisable, or the school committee may require.

MEDICAL INSPECTION.

The following directions conform to and are designed to aid in complying with the law relating to medical inspection, Chapter 502, Acts of 1906.

1. The teacher shall give the tests for sight and hear-

Rules and Regulations.

ing and send notices to parents or guardians according to the directions in Portfolio A-XIII-I, 2.

2. Each teacher shall immediately refer to the school physician each child "who shows signs of being in ill health or of suffering from any infectious or contagious disease, unless he is at once excluded from the school." (Sec. 3, Chap. 502.)

3. Whenever a teacher excludes a pupil from school because he shows signs of being in ill health or of suffering from any infectious or contagious disease, he shall send notice to the parent or guardian and to the superintendent of schools. In the case of any infectious or contagious disease the superintendent of schools shall at once notify the board of health. (Sec. 4, Chap. 502.)

4. Each teacher shall refer to the "school physician for examination and diagnosis every child returning to school without a certificate from the board of health," or from the attending physician, "after absence on account of illness" from any infectious or contagious disease "or from unknown cause." (Sec. 3, Chap. 502.)

5. The "school physician shall make a prompt examination and diagnosis of all children referred to him" and shall send a "notice of the disease or defects, if any, from which the child is found to be suffering to his parent or guardian." (Secs. 2 and 4, Chap. 502.)

6. The school physician shall make "such further examination of teachers, janitors, and school buildings as in his opinion the health of the pupils may "require." (Sec. 2, Chap. 502.)

7. Whenever a child is examined by the school physician and found to show "symptoms of small pox, scarlet fever, measles, chicken pox, tuberculosis, diptheria or influenza, tonsilitis, whooping cough, mumps, scabies, trachoma," or pediculosis, "he shall be sent home immediately, or as soon as a safe and proper conveyance can be found, and the board

Town of Wayland.

of health shall be notified" by the school physician. (Sec. 4, Chap. 502.)

8. The school physician shall keep a record and report to the school committee the result of each examination and diagnosis as required by section 2 of chapter 502, Acts of 1906.

9. The superintendent of schools shall keep on file a record of all reports made to the school committee by the school physician.

Note:—When a child who has been ill with scarlet fever returns to school within a period of eight weeks from the beginning of his illness, he may be referred to the school physician even though he should bring a certificate of recovery. This should be done in every case when it appears that the desquamation has not entirely ceased.

EXTRACTS FROM SCHOOL LAWS.

ATTENDANCE.

(Revised Laws, Chapter 44.)

By chapter three hundred and twenty, Acts of 1905, section one of Chapter forty-four, is amended, in part, as follows:—

From section 1. "Every child between seven and fourteen years of age, and every child under sixteen years of age who cannot read at sight and write legibly simple sentences in the English language, shall attend some public school in the city or town in which he resides during the entire time the public schools are in session . . ." Every person having under his control a child as described in this section shall cause him to attend school as herein required, and if he fails for five day sessions or ten half-day sessions within any period of six months . . . to cause the child to attend school he shall . . . be punished by a fine of not more than twenty dollars . . ."

The attendance of a child shall not be required: (a) "If attending a private day school approved by the school committee," or is being "otherwise instructed . . . in the branches of learning required by law"; (b) "If he has already acquired such branches of learning"; (c) "If his physical or mental condition is such as to render such attendance inexpedient."

TRUANCY.

(Revised Laws, Chapter 44.)

From section 3. "A child between seven and fourteen

Town of Wayland.

years of age who wilfully and habitually absents himself from school . . . shall be deemed to be an habitual truant, and . . . may, if a boy, be committed to a county truant school . . . and, if a girl, to the state industrial school for girls . . .”

From section 4. “A child between seven and sixteen years of age who may be found wandering about the streets or public places, . . . having no lawful occupation, habitually not attending school, and growing up in idleness and ignorance, shall be deemed to be an habitual absentee, . . . and is liable to commitment as in section three.

From section 5. “A child under fourteen years of age who persistently violates the reasonable regulations of the school which he attends, or otherwise persistently misbehaves therein, so as to render himself a fit subject for exclusion therefrom, shall be deemed to be an habitual school offender . . .” and be liable to commitment as in section three.

EMPLOYMENT.

(Revised Laws, Chapter 106.)

By chapter two hundred and sixty-seven, Acts of 1905, section twenty-eight of chapter one hundred and six is amended so as to read, in part, as follows:

Section 28. No child under the age of fourteen years and no child who is over fourteen and under sixteen years of age who does not have a certificate as required . . . certifying to the child's ability to read at sight and to write legibly simple sentences in the English language shall be employed in any factory, workshop or mercantile establishment. . . .

2. No certificate (age and schooling) . . . shall be approved by any person for a minor under the age of sixteen years who intends to be employed in a factory, workshop or mercantile establishment, unless such person is satisfied

Extracts from School Laws.

that such minor is able to read at sight and to write legibly simple sentences in the English language.

From section 29. "No child under sixteen years of age shall be employed in a factory, workshop or mercantile establishment unless his employer procures and keeps on file . . . an age and schooling certificate. . . ."

From section 30. "An age and schooling certificate shall be approved only by the Superintendent, or by a person authorized by him in writing"

From section 32. "The age and schooling certificate of a minor under sixteen years of age shall not be approved and signed until he presents to the person who is authorized to approve and sign it an employment ticket duly filled out and signed"

Children between fourteen and sixteen years of age who apply for an age and schooling certificate must bring an employment ticket properly filled out by their intending employer and be accompanied by employer or custodian. Employment ticket blanks may be procured from the superintendent.

CONTAGIOUS DISEASES.

(Revised Laws, Chapter 75.)

From section 51. "The board of health . . . shall give immediate information to the school committee of all contagious diseases . . . reported to them."

(Revised Laws, Chapter 44.)

By chapter three hundred and seventy-one, Acts of 1906, section six of chapter forty-four is amended to read as follows:

Section 6. "A child who has not been vaccinated shall not be admitted to a public school except upon presentation of a certificate signed by a regular practicing physician that he is not a fit subject for vaccination. A child who is a member of a household in which a person is ill with small-

Town of Wayland.

pox, diphtheria, scarlet fever, measles, or any other infectious or contagious disease, or of a household exposed to such contagion from another household as aforesaid, shall not attend any public school during such illness until the teacher of the school has been furnished with a certificate from the board of health of the city or town, or from the attending physician of such person, stating that the danger of conveying such disease by such child is passed."

MEDICAL INSPECTION.

(Acts of 1906, Chapter 502.)

From section 1. "The school committee of every city and town in the Commonwealth shall appoint one or more school physicians, shall assign one to each public school within its city or town, and shall provide them with all proper facilities for the performance of their duties . . .

From section 2. "Every school physician shall make a prompt examination and diagnosis of all children referred to him as hereinafter provided, and such further examination of teachers, janitors and school buildings as in his opinion the protection of the pupils may require."

From section 3. "The school committee shall cause to be referred to a school committee for examination and diagnosis every child returning to school without a certificate from the board of health after absence on account of illness or unknown cause; and every child in the schools under its jurisdiction who show signs of being in ill health or of suffering from infectious or contagious disease, unless he is at once excluded by the teacher . . ."

From section 4. "The school committee shall cause notice of the disease or defects, if any, from which any child is found to be suffering to be sent to his parent or guardian. Whenever a child shows symptoms of smallpox, scarlet fever, measles, chicken pox, tuberculosis, diphtheria or influenza,

Extracts from School Laws.

tonsillitis, whooping cough, mumps, scabies, or trachoma, he shall be sent home immediately, or as soon as safe and proper conveyance can be found, and the board of health shall at once be notified."

From section 5. "The school committee of every city and town shall cause every child in the public schools to be separately and carefully tested and examined at least once every school year to ascertain whether he is suffering from defective sight or hearing or from any other disability or defect tending to prevent his receiving the full benefit of his school work, or requiring a modification of the school work in order to prevent injury to the child or to secure the best educational results. The tests of sight and hearing shall be made by teachers. The committee shall cause notice of any defect or disability requiring treatment to be sent to the parent or guardian of the child, and shall require a physical record of each child to be kept in such form as the state board of education shall prescribe."

From section 7. "The expense which a city or town may incur . . . shall not exceed the amount appropriated for that purpose . . . The appropriation shall precede any expenditure or any indebtedness which may be incurred under this act, and the sum appropriated shall be deemed a sufficient appropriation . . ."
